

# Enlightenment

**Mushiba:** “This is the only way to enlightenment and becoming spiritual,” is a phrase I hear from some who want to tell me that their way is the only way. And, I am then told the very specific ways to gain enlightenment and that unless I do that, I am not spiritual. Waith refers to people who tell us that their way is the only one way to enlightenment, as spiritual elitists.

During his class, *Living in Your World as a Spiritual Being*, Waith said:

**Waith:** *“It is not possible to be living ~ to be in existence ~ and not be a Spiritual Being. Everyone is living in their world as a Spiritual Being. There is no trick here ~ there is no special status given to particular individuals because they may have attained a level of Enlightenment, as the spiritual elitists would want you to believe.”*

Since we are all Spiritual Beings, it means we are all enlightened. As we live each moment, we become more enlightened, and thus, grow in our spirituality.

Let us rejoice in our ongoing enlightenment!
