

Service or Imposition?

Mushiba: So often, in our enthusiasm to Be of Service to Others, we lose sight of the fine line that exists between Being of Service or Imposing. Finding that fine line can be quite the challenge for Self ~ as well as, once Self finds that fine line, respecting it.

Waith brought a perspective to this challenge we each face, during his discussion of the *Earth Plane Connection*, when he said:

Waith: *“It is not for you to determine what an individual’s balance is. Rather, simply Be of Service as they seek their own understanding.”*

The flipside to Imposition is *others imposing on us!* We may be so focused on helping another, that they begin abusing us. Thus, that fine line for us now is, are we Being of Service or Being Abused.

Service Or Imposition? That fine line is different for each of us!
