

# What Do I Do Now That I Have The Information?

**Mushiba:** We often hear the statement, “Information is powerful.” While I agree with the concept, I also believe that the *real power* is what we *do* with information. And that seems to be the challenge. Waith has said that his mission is to provide information ~ and it is then up to each of us what we do with that information:

**Question:** “How can I best use the information that you give us?”

**Waith:** *“That is for you to determine. We give the information that is asked of us in terms of what we feel you are capable of understanding. We do not give you the way to implement or tell you what to do with the information. That is up to each of you, for you have free will and it is part of what you are here to learn.”*

*“We are here to give you guidance. You must go within Self and have a connection with your Spirit Guides who will help you in understanding what to do with the information given to you and then utilizing this in the way in which it feels best for you.*

*“Many entities have said that they cannot hear their Spirit Guides. This is a common situation because it can take many years ~ possibly even lifetimes. This, then, is the ultimate challenge you face ~ hearing Self.”*

Face the Challenge ~ Waith’s consistent message to us. And yes, it is certainly empowering for Self to be able to decide what to do with information ~ however, occasionally, would it hurt to tell us exactly what to do?!
