

The Power Of Sending Thoughts Of Love

Mushiba: Our thoughts are powerful and affect both our own individual Universe as well as The Universe of All. Waith consistently counsels us on the power of our thoughts. Here is a sample:

Waith: *“Everything you do, every thought, movement and word, affects every other energy. All that is done affects every other energy. If you send out negative thoughts, that will reverberate throughout The Universe. And if you send out thoughts of love, that will reverberate. What better thoughts to send out than love?”*

Right now, as you read these words, **Think Love ~ Think Light ~** and send those thoughts to Self and then send it out to Others. Feel the power of Love!
