Waith's Anniversary Session

It is the anniversary, as you would call it, of my renewal with the energies of Mushiba. It is on your earth plane one year to this day that the agreement made ten thousand years ago between Mushiba and I came to fruition. We have begun to continue our work as we left it ten thousand years ago in Atlantis. It has been a most interesting time frame this year.

I have called this little gathering together for a very specific reason. You are all of a vibration that I felt would be appropriate to be gathered for the introduction of some of the other six who work in this process with me, and we have been preparing Mushiba's vibration over the past time frame of one year, and her actual cells in the physical body, so that they would be able to speak. Her vibration is able now to accommodate any vibration that we would want. There would be no vibration higher than mine that would be coming in through Mushiba, and so she is adjusted now for mine and therefore is able to take other vibrations with ease.

It has been a most difficult physical time period for Mushiba. However, it has been done with the knowledge that those other six who are with me can learn some of their lessons by entering the vibration of Mushiba when called upon. Most of the time it will be I who speaks for the group. However, there will be occasions when the others will speak. So we are going to introduce to you some of the others, and they will enter and bid you greetings. They will test Mushiba's vibration so that they will know what it is like, and she will know what it is like, and you will be able to identify the different personalities that will come through.

So, there will be a few who will enter. I will step aside, so to speak, for the moment. Some of the vibrations you will notice will vary. They are in varying degrees of attunement. They will introduce themselves. After they have done this, I will return. We will begin now.
(There is a period of silence while Farena enters in)

Farena Introduces Herself To The Group

Farena: Hello-o-o. My name is Farena! (Smiling, moving arms and head, touching hair, with a high feminine voice). Oh-h, I love Mushiba. I have loved her for a very long time. She and I and her twin flame, and my twin flame, are all very, very connected. Oh, this is so wonderful. I am most pleased to be here with all of you. I was called in specifically to help. You see, Mushiba's twin flame and I are here at this dimension, and my twin flame and Mushiba are on the earth plane. We have waited so long for this moment. It is most enjoyable. I am uncertain as to what my mission will be here when I will be allowed to come in and respond. However, Waith knows the answers to this, and I am just most pleased to be a part of all of this.

I love all of you! You are all such shining lights. I wish I could describe to you what it is like to be in this body and to feel your vibrations. You are all of such Light. It is beautiful. We have stood by during these open sessions, not experiencing it the way Waith has described it for us. It is now time for me to leave so that some of the others may be allowed to come in and introduce themselves. Bye bye.

(There is a silence while Farena departs and Jacques enters)

Jacques Introduces Himself To The Group

Jacques: I am a doctor. That was my last earth plane life. I am a healer. My function with Waith and Company is to give guidance in the medical area. It is I who has talked about grapefruit juice, for example. And it was I who requested, with Waith, that a certain entity be here today. (The following is directed to this entity) Yes indeed, we are here to help you in your healing. You have a very special mission. I have a very special mission here myself, for I want to earn my wings rapidly. I am finished with the earth plane and now I am here to help any who want particularly to improve their healing abilities. You are my first charge, so to speak.

You may call upon me when you begin to have difficulties, when you begin to doubt what is happening to you. I am here to protect you and to help you to improve upon your own healing abilities. You are a healer. When Waith enters Mushiba's vibration, now that we have done this breakthrough, you will be able to call upon me. It is most enjoyable to be here with you all.

I will leave now. There is someone else who wishes to introduce. You will know most definitely when it is I who is coming in. I bid you farewell.

Francis Introduces Himself To The Group

Francis: My name is Francis. I call upon you to bring the animal into my vibration. (Barnabus, the dog, is brought into the room.) Yes. Barnabas. Barnabas. Barnabas. Lie down, Barnabas. (Barnabus heads for Judith's plate, which is on the floor) It is all right, Barnabas. He is hungry. It is I, Barnabas, your protector. Lie down at my feet. Now, I give to Barnabas a special lesson.

I am known on the earth plane as the Patron Saint of Animals. I am part of this mission to help in the understanding of all on the earth plane of the connectedness of The Animal Kingdom with that of the human, to help all of you to modify your behavior toward The Animal Kingdom. I am part of Waith's charges, if you will, and it is with great honor that I feel a part of this mission, to Be of Service to all of you, to help you. It is not an easy task to

modify your attitudes toward The Animal Kingdom when this is much more than the issue of eating meat. It involves all of the treatment of The Animal Kingdom, and in my own small way, I am here to help you and to answer questions, as time progresses, regarding animals and their connection to all of you.

Barnabas is a very special entity in The Animal Kingdom in that he has now progressed to a point where he can evolve into a higher life form. (Francis holds up the index and middle fingers) This is my sign. When I give you this, you will know it is I who is providing the information. I, like Jacques, am here to assist the group and to provide the answers as they occur. We have been doing this thus far. Waith has been giving the information and seeks the knowledge that we have. He knows, himself. However, he seeks it from us so that we may learn and Be of Service. This is our mission, to be of complete unselfish service to all of you. I have been in this dimension for some time now, learning much, and I want very much to be able to share it, to assist all of you as the time progresses. I will depart now, now that we have calmed down Barnabas. It has been a pleasure speaking with you.

The entity termed Jenjura is now in physical form.

Jenjura Introduces Himself To The Group

Jenjura: I am new to all of this channelling. I have a very special mission, which will be unfolded as time progresses. I will not be as evident in the information given as some of the others. I am going to be a researcher, if you will. Part of my mission is to gather the questions that seem to be of utmost importance to those on the earth plane and to put those questions into, what we might call, an agenda, and gather the information in a simplistic manner, for our group mission, as Waith has said, is to provide the information in as simple a manner as possible.

Those Universal Truths, and all of the information that appears to be so complex, I am able to gather from many sources, the words, so that we are able to translate it into understandable dialogue for all. You will not hear my voice too often. However, you will hear the results of my investigations. And I, like the others, can be called upon by anyone for assistance in your meditations and in your daily lives in your attempts to reach your Higher Self. I am available to help and guide you.

Even now, as I am here, I am gathering certain questions that are uppermost in your minds, the confusions that you are having. And know that I will be taking these questions and seeking the way in which to translate the information, so that one of these sessions coming, you will have, what is in your mind now, answered. You will not even have to ask the question, for these sessions will have topics. These topics will be relating to the questions that you all have. This is our mission. It is very simple. We are here to Be of Service to all of you. I bid you farewell. Bye.

(Bathusela enters, moving arms, waving hands, flips hair, moves head back and forth)

Bathusela Introduces Herself To The Group

Bathusela: I am Bathusela. I am of The Angelic Force. I came into being as an Angel. I have been sent by Waith ~ it is not the same. I am the one who gives you pink. I am the special emissary who Waith sends. I diffuse darkness as much as I can, and you will see the residual in the form of pink sparkles. That is my sign. I love you all. I will not be speaking very much. My role is to be called upon for special protection. And while I do go to the male energies, I am primarily for the female energies, to help in the strengthening of the female energies on the earth plane to understand their femaleness, to help to understand femaleness. This is all very new to me. I have been with each of you. Mushiba's physical body is beginning to, shall we say, overheat. We have done much to her. So I will depart and Waith will now come back and smooth out the energies that have been all rippled with all of us. Goodbye.

Waith Returns After Five Of The Six Were Introduced

Waith: There is one who is yet to be identified. There were five who you met. The sixth one will be identified when the time is right. It is not right yet. I am most pleased by this. Even more pleased that Mushiba's physical body is able to take all of this now. It has been quite a time and, as some of you know, the cellular changes have at times taken their toll on her. However, we have still major changes to occur in her cells. It will be of a different category. We are most pleased that this has all occurred and that Mushiba's energies are so high.

Learning To Fend Off Mischievous Entities ~ Each Entity Must Protect Themselves

(Speaking to someone in the group) *My son, you are being tested. As such, we must allow the mischievous entities to attack you so that you can learn to fend them off, as you have begun to do. We will not allow any destruction to occur. We watch very closely. However, you must know that you must protect yourself. Each entity must protect themselves. That is the ultimate goal. We are here to help you learn to protect yourselves. We are here when undue attacks occur to help you along your path. Know that we are watching you and will not allow anything to happen to you. The cold hands you felt on your knees were mischievous entities. Never accept coldness in your vibration. Know when you feel cold that it is a negative energy, and you are to dismiss it. You are to tell it to go away and that you will have nothing to do with it. Call upon those who you have met tonight. Jacques, especially, will help you in fending off these attacks. You are not going crazy. You are a strong energy and a healer. We are here to help you strengthen that.*

We are most pleased that you were all here in this hospitable setting for the introduction of the others. They will now be able, when called upon, to enter during the open sessions,

and any adjustments that they had to undergo in coming through Mushiba's body for the first time has been taken care of now. They know what it feels like, and they do not have to do this in open session. They can get right down to business. So, we thank you all.
