A Practice Session For The Orientation Video

And welcome to this our first practice session for the orientation that we will have for those who would want to hear us, but perhaps have a bit of trepidation, or, at a very minimum, would have questions relating to this process that occurs, and to its mission. What we have worked out is that we will do this, what we would call practice, for perhaps two times, you see. If you all feel that more time is needed then we will abide by your wishes.

We look to Mushiba and Abalma to take care of the earth plane aspects of this, and they have a very bright entity who will be assisting in the production end, if you will, what you would call the professional taping of this, and thus, we would want you to, in this particular session now, to just allow things to flow. Do not be concerned about which question should go first and who should ask what question.

Also, understand that many of you in this session now in this vibration are under no obligation to make any comments or to ask any questions. In addition, for any of you who are new, and we welcome the new entities, we would say that if there is a question that you have that is not asked that it would contribute to the total effort for the question to be presented. Thus, it would Be of Service to our total mission, for all of the questions that need to be presented by all of you then reading the transcript of this session, you will have it then more concretely for your critique as to which questions perhaps did not need to be asked, or the order, then, becomes something to be looked at.

And thus, in this time frame we will simply take the questions, and then it will be where we work together in the next one, to look at the order perhaps of the questions, and in fact, those who would want to ask questions ~ and then we would have what you would call a final dress rehearsal. And it will be at that time that the professional would enter to assist in all of those earth plane aspects of the proper lighting and the proper positioning, and would also advise all of you on the various colors that you should be attiring yourselves with so that you would look your most beautiful, for this, of course, must be proper reflection of who we are, what our mission is, and how we are of service to the Community of Terra Lux, and how Terra Lux is to function within this mission. And we would want it then to be attractive in its presentation so that the message that we have would, in fact, be listened to, if only because it is so professionally processed.

And, dear one, this no reflection upon the wonderful efforts that you give, for the work that you have provided and given is very beneficial for the loaning out of these tapes for those who would want to.

It was a good start. Now, I will learn how to be professional.

That is correct, my love. A most appropriate attitude. Yes. So, thus, we will begin. And the others in The Company, of course, are ~ at the right moment when they are called upon will come forward and speak briefly. Thus, we are ready now to carry on.

Could You Tell Us How Cheri (Mushiba) Began Channelling?

Ah, indeed. Well, you see, it began millennia ago and is coming to a final point in this incarnation. The details of the beginnings are not all that necessary. What is important to know is that it was agreed upon many, many, many, as you would measure it on the earth plane, thousands of years ago, that when the scenario for the conclusion of this illusion was to present itself, that this would be the way in which we would, in combination, speak.

It was determined that rather than my being incarnated in physical and working with Mushiba, as we have done so often in prior lifetimes, that it would be beneficial for the growth process for entities to become aware through an entity in female form ~ and this is why Mushiba has taken on female in this incarnation ~ to have a male vibration, or as perceived male vibration, speak through to present a rather interesting contradiction and also, to present a test of faith, to present a lesson to believe. Mushiba has gone through this particular process ten other times, as measured on the plane. This is the eleventh, as you would say. It is a very natural process for Mushiba. The level of her advancement is known to many of you and is really not necessary for discussion, especially for this orientation tape.

The beginnings, however, occurred in this lifetime with Mushiba what we call tying up loose ends. It was determined that there would be an approximate age span of eighty years, as measured on the plane, for this particular lifetime ~ and the first half of this lifetime was devoted to the tying up of loose ends, for this is the final lifetime on the earth plane sojourn, that is required, you see.

Now, what occurred is that once these loose ends were tied up, and this is meant that certain balancing was needed in certain areas, and certain lessons to be learned at earth plane level, it was then ready for Mushiba to prepare the physical encasement for the combination of her vibration and my vibration. And thus, a period of time began in which the vibration was periodically attuned, and there were particular types of what you call food consumed by Mushiba that helped in achieving a certain vibrational attunement that would allow the easy entry and departure of our vibration, as well as to allow other vibrations to enter in ~ thus, Waith and Company (The Spirit Group).

The Process Of Channelling Can Be Achieved By Any Entity

The process of what is called channelling is something that can be achieved by any entity. There are several situations, however, that enter into whether an entity chooses to do

this channelling. The first, of course, is that it requires a tremendous amount of responsibility, and there is a commitment to Be of Service, totally, to those who would come in contact.

Waith Describes Types Of Channelling And The Responsibilities Required

Now, depending upon the type of channelling that an entity would do determines the level of that responsibility and the amount of that commitment to others. Public channelling, as this is, does require a high level of selflessness and being available when needed. All entities, however, have the capability of bringing through information from a Higher Source, which is really what channelling is, and there are many who are able to channel their own Higher Self, and either, through meditation, simply connect with the Higher Self, or through automatic writing, as it is referred to, can then bring in the Higher Self. Guides, Spirit Guides, are also capable of speaking through an entity. Any number of spirits from other realms are capable of speaking through any entity, be it on the earth plane or be it in any other training ground.

It simply becomes a matter of whether you want to do it or not, for at spirit there is an understanding of the responsibility that goes with this, and it can be abused so very often for there is the potential of having such tremendous power to have information available to you at another level. And understand that this abuse can also relate to the spirit that is speaking through, you see. It can be a test on all parts, you see.

Now, Mushiba, having other responsibilities at spirit, was requested by Amelius to end the sojourn on the earth plane in a way that would assist in the illusion change and would assist in those entities who need to grow vibrationally to whatever level they so desire. And thus, the process of being able to speak through Mushiba began, as it is measured on the plane, only three years ago. (1987)

We will go into other information relating to this perhaps further on as the other questions are presented. And then, of course, we will finetune the way in which we present this particular information. If you feel that there is more that you would want to know, or that others would want to know more specifically, then we will do that in our next practice.

A Question Of The Vibrational Names Of Waith And Mushiba

Waith, you refer to yourself as Waith and Company. Who is Waith and Company and why do you refer to Cheri as Mushiba? I think that may be confusing for people coming in.

Indeed. Mushiba, first of all, is a vibrational name. It is ~ as many of you know, you have vibrational names, or spiritual names, and most entities have many, many vibrational names. It is dependent upon the combination of vibrations meeting in a

group setting as to what particular vibrational name would be appropriate for the continuation of a vibration that had been started in another experience.

Ten thousand years ago in the conclusion of The Atlantean Illusion, Mushiba was incarnated along with myself in physical and, of course, Abalma, who will also be discussed, and the name that was used in that time frame was Mushiba. It was a name that had been used many hundreds of thousands of years prior to that by Mushiba. And since this particular time now is the replaying of certain scenario from the Atlantean time, the name Mushiba was determined to be the most vibrationally attuned for all of the work that needs to be done, and also is vibrationally connected to the many, many entities who would work closely in The Community of Terra Lux who have vibrational connections to Mushiba and Abalma during that time frame.

The Intermingling Of Earth Plane And Spiritual, And The Balance Of The Two

Now, Waith and Company. There were many names that could have been taken on, and since a part of the illusion that Mushiba and Abalma work in during this incarnation is one of a company and, as you call, a business that has as its sole mission the furtherance of Terra Lux and the building of the shelters, the preparations of the shelters, and the development of community and the development of those areas that will prepare for The New Illusion, it seemed appropriate that since we are here to help show how to balance spirit and earth plane that we would give you a bit of spirit with "Waith" and a bit of earth plane with "and Company," for this is truly what Mushiba and Abalma are here to help guide you all with, and that is the balance of spirit and earth plane, and that all that you do on the earth plane in the physical has a direct impact upon spiritual, and all that is spiritual need to reflect itself in your behavior on the earth plane and that one is not mutually exclusive of another, but rather completely intermingled. And thus, it is a way of showing the balance between the two.

Waith Describes The Difference Between Terra Lux And What Would Be A Cult

Waith, describe what makes this different than a cult would be. Why is this different, would you say, than a run of the mill cult?

This is not, as you would call it, a cult, for in a cult the leaders give out what is called dogmatic information that requires its followers to adhere to the information as it is given. It is given as a one and only truth, and in order to be a part of that group you must follow the dogma. There is extreme mind control that is evident in that which is called a cult. Now, on the earth plane, any grouping of people now is very often looked at as a cult, for when groupings of entities gather, they usually have a common purpose and that is very often referred to as a cult.

Now, what we present for information is not dogmatic, nor is it given with the intention that you must believe it, you must follow it, you must adhere to it ~ but rather, it is

given as information to be used freely by Self in a way that feels proper for Self ~ and, as many of you know, we do not give you the answers. In fact, we must work rather diligently, for you ask us to give you the answers, and for the most part, this is not what occurs, but rather, we are here to guide and to give you the information that will assist you in reaching your Higher Self and in reaching the answers yourself.

There is no requirement for membership in the grouping. One of the reasons from the beginning that we indicated through Mushiba that there would be no monetary charge for access to our information, was to send a message that the purpose is not for monetary gain, for gain of possession, but rather, the purpose is for dissemination of information so that any who would need the information would have it available to them. And, thus, the information that we provide is given freely and is given in a way that is not expected to be followed dogmatically in any way. We are here only to Be of Service, and The Community of Terra Lux members are here to assist in the furtherance of that information, and any entity is welcome to come and go as they please within the vibration.

And we are not adverse at all to being challenged with the information that we present, for we present information that comes from The Universal Consciousness that for some is understood, and for others is not so understood ~ and as awareness is gained with an entity, so too, does the Truth of The Universe begin to change, and there is a greater understanding of the Universal Truth. And thus, the information that we give to you, as many of you have found from the beginning time, where you did not understand, now you understand. You have read back and information now is clearer to you, for you have gained in your awarenesses.

We do not force anything upon any entity, nor is there any commitment financially to the Community of Terra Lux, that you must give up your possessions and turn over your bank account to the community. Quite the contrary. We see struggling, and this too is part of the lesson, for as we indicated to you quite some time ago, no one here is going to win the lottery. ☺ Thus it is that the Community of Terra Lux serves as an example of the struggle between the spirit and the earth plane and that by working together as a community, much can be achieved in all dimensions, both at physical and at spirit, and that one does not take over in the other area, that attention is given equally to both sides of the ~ of this teeter-totter, so to speak.

Waith, could we have Farena be introduced now?

Perhaps, now we would introduce all. And now, my love, we would want to stand for this, but will this upset the balance of your attunement? (Waith is referring to the video setup)

Now, a part of the vibrational adjustments that occurred with Mushiba involved a smoothing out so that it would allow an easier flow of other energies to come in, for understand that Mushiba's vibration is extremely high, and it was actually a smoothing out of her vibration to allow the other vibrations to more easily move back and forth,

and also to, as it is so necessary on the plane, save time so that there would not always be this time waiting for one energy to move over and the other energy to then come out and speak, you see. This way, as many of you have experienced and seen the transition over this time frame, where each of the six now are able to enter.

And they are here now, all simultaneously, and if there were seven mouths that could be speaking, they would all be speaking, you see. They would have that ~ thus, they are now ready to enter, and they enter in to greet you not in any specific order. Thus it is that no level of importance is placed on one over the other because they happen to come in before the other one. And I have given them essentially free rein, and we will see what that brings about in determining who is arriving and that sort of thing.

Would it be appropriate if we ask them some of our questions?

Yes, that would be appropriate to ask them the questions. Thus, that will bring about the dialogue, you see. Yes. And thus, I will allow now the six to have their day in the spotlight, shall we say.

Farena: Oh, hi! My name is Farena. And I am ready to take questions. I am the first one! We drew straws. ☺

Farena, Can You Tell Us, What Is An Angel?

Farena: What is an angel? WHAT IS AN ANGEL? by Farena. ☺ An angel is an entity that has a very special mission. An angel is an entity whose mission is to help all entities to guide and to love unconditionally. An angel tries the best not to judge and is given all of the abilities and techniques to not judge so that an angel can help all of you. And angels are assigned to all of you. You all have an angel. Some of you just do not know that you have an angel, and we are here to help you in whatever way we can. An angel is love ~ and all of you are potential angels if you want to be, and you can be an angel while you are on the earth plane. An angel is really an attitude, an attitude of caring, of loving and sharing. (Beginning of sentence inaudible) ~ even when we are an angel.

Farena, why are angels taking time to talk to us in this manner? Why are you all coming through to talk to us now?

Farena: Why not? ☺ Understand that in other illusions, and the new one coming up, that angels are not thought of as some perfect being that is separate from all other energies. We are all One, and so more and more angels, or those of us from the Angelic, are speaking on the earth plane in places all around. And we are speaking through you so as to demystify The Angelics and to show that an angel is simply an energy with a specific mission to guide and help and love.

And angels are not to be bowed down to or thought of as any kind of super being, and that is why we speak now in greater numbers, for in The New Illusion we will be speaking even more and more, and no one will even think that it is unusual. We did not in Atlantis. We were able to come and go in The Atlantean Illusion without entities thinking that it was something very strange, but this particular illusion that is now about to end had as its groundwork certain very narrow views of The Universe. It was most necessary, but now we are ready to come back up ~ (Balance of sentence not clear on tape)

Ah, well, ta-ta. ☺

Bye, Farena.

Farena: Bye, bye.

Francis: (Francis enters and holds up the three middle fingers of the right hand) It has been some time since we have been in the vibration. We are most pleased to be in your vibration now, and we are, thanks to Farena, lightening up. What would you ask of us?

Francis, What Is Your Function In The Company?

Francis: We are known in the last incarnation on the plane as Francis of Assisi, and we have as our mission to assist The Animal Kingdom and to give information that will guide The Animal Kingdom ~ (Word is inaudible) all entities in The Human Kingdom ~ and thus, we give you information that will enable you to Be of Service to The Animal Kingdom as they are of Service to The Human Kingdom. This is our primary function.

We are not called upon all that often. We are in Waith and Company for very specific learning by being a part of The Company. And so, very often, when questions are asked of Waith concerning The Animal Kingdom, even though he knows the answers, he then requests that I give that information, if not directly to you but to him, thus enabling me to learn my lessons as needed in this area, for I continue in spirit now that which I have followed in the path on the plane. (A short pause) Farewell.

Susan: Well, hello. I am Susan. I am represented by the color blue, and I have a very specific purpose for being a part of Waith and Company, and I have a very direct connection to Mushiba. There are certain situations that will be presenting themselves very soon in which my special energy and talents and abilities will be called upon. I have not been called upon, but I have, in your meditations, come to many of you. I am a healer and I work in conjunction with Jacques, for I have entered into The Angelic Realm now with Jacques, to be of assistance. What would you ask of me?

Susan, Is Part Of Your Mission To Do Healing Within The Community Of Terra Lux?

Susan: We will be called upon to assist in spiritual healings of group situations.

Spiritual healings as opposed to healings on the physical level?

Susan: That is correct, my love. Understand that spiritual healing must work at physical, and thus, the two are interrelated, but our mission is to work with group healings rather than individual healings so that for those who come into the illusion needing to work out a situation with a group, we are here to assist in that. Farewell for now.

Jenjura Enters And Discusses His Function Within The Group

Jenjura: Well, the greetings to all of you! It is I, Jenjura! Yes. I am not allowed to come out very often now. ☺ And I have been given the name Jenjura as a reflection of what you call research. I am the Librarian of Waith and Company and, for example, if Waith asks Francis to get some information about a particular animal, I am the one who is available to assist Francis in finding that information. You see, it is not as many of you would think in searching out information from The Universal Consciousness that ~ that there it is, and we just take it. You ~ we must search it out, much like you would call a computer where you bring this information onto a visual screen and search out the particular information. Of course, one of the differences is that we are able to do this rapidly as opposed to what your inadequate computers are going to accomplish.

Limera: You do not have to boot up.

Jenjura: Boot up. Yes. Yes, Limera.

And you do not jam like the computers!

Jenjura: Quite the contrary, my love. There can be what is called short circuits. But this is the function of a librarian. I have been with Waith and Mushiba and Abalma in many, many, many incarnations. And it was I who was the first earth plane connection that Mushiba had with spirit, for I was speaking through another and Mushiba heard me speak, and I had a certain role to play to initiate at the conscious level that which had already been determined at the spirit level. And because of that I am now in Waith and Company but do not speak through very frequently.

Jacques Enters And Talks About His Function In The Spirit Group

Jacques: The blessings to you. I am Jacques. I also work on being too serious. What questions would you have of me?

Jacques, your function in Waith and Company is that of a healer to work with Susan? Are you a healer on a spiritual level?

Jacques: That is correct. Susan is here to help group. I am here to help individuals. And the time has now come for the actual physical healing, and this will begin to present itself in the special session.

Do you show yourself as the color green?

Jacques: Yes. That is correct.

Do you come into our meditation like Bathusela does?

Jacques: Yes. You need only call upon myself, and you need only call upon any of The Company and we will come to you.

Bathusela Enters And Discusses Her Function In The Spirit Group

Bathusela: Guess who I am. I come to you as pink. What do you think my mission is?

⚙️ **Paint the world pink? 😊**

⚙️ **To make life happy. Happier.**

Bathusela: Yes, that is true. We have a special workings with crystals, and we are now ready after much preparation to help you all understand them. And you may call upon our vibration to assist you in understanding of the crystals and Being of Service to your crystals. We are of the Angelic, and as Farena so beautifully demonstrated, we are love, and we give to you all love, total Unconditional Love.

Waith: Well! I am back. I will seat the encasement for now, and we will now look at where we are in these questions. How are you all doing now with your questions?

Waith, Can You Explain The Difference Between Waith Versus Organized Religion?

Waith versus organized religion. It sounds like some kind of movie, now, doesn't it? 😊 We do not want to be looked at as THEM AGAINST US. We are not VERSUS organized religion. We are not one against anything. We are simply a part of the Universal Knowledge. We present Universal knowledge. Organized religion serves a very important function on the earth plane in this illusion, and many, by definition, would call the Community of Terra Lux an organized religion, if you were to look at the definition of organized religion, you see. The only difference, really, is that, as you would call it, organized religion has been around for a long time and has a great many tenets established ~ dogma, but it is simply a grouping of entities who share similar beliefs. Organized religion, by its very process of evolution, moves from its beginnings of

pure concept into a situation over hundreds of years that bring about a watering down, a changing of the beliefs, for it has been passed down from generation to generation.

When Amelius was on the plane as Jesus, the concepts of that religion in its pure form bear very little resemblance now to what has evolved as a result of this, but this is fine. This is change. This is where entities are able to learn lessons by entering into the illusion in a particular organized religion group ~ for groups, once they have established themselves, have a pattern of reincarnation that needs a balancing for it to come to a conclusion. Thus, we speak beliefs. We give what will be taken as beliefs by many, even though they are simply Universal Concepts.

Amelius, as Jesus, spoke of Unconditional Love and harmony and peace. All religions have that theme as their base, be it that which is Christian, that which is a Buddhist, that which is Judaism. Any religion, if you look at its base, you will see that at the core, for that theme is what unites all entities, but it is from that theme then that entities are able to balance out the striving for the perfect, which is Unconditional Love. And thus, each organized religion sets the scenario, if you will, provides the opportunity for entities to work on these Universal Concepts. So, we are not against any religion. Unfortunately, many religions are against us. Thus it is.

If there is a basis for all religion, what is the basis in this Community of Terra Lux? Tell me what it is you are saying that would make you different than, let us say, Catholicism, being a Presbyterian?

We are no different, my love.

Then what is it that you are saying other than ~

We say nothing different than what has been said before. Our message at the base, at the core, is no different than what you would read in the Bible, as it is called. It is no different than if you were to look at the core of any readings, any beliefs that come from any groupings of entities who seek Spiritual Truth and growth. We are no different. We simply now present this information in a different setting, and we enable groups of entities to come together, to work together, in the dissemination of information in perhaps what might be called a different package, for understand that the ~ (The tape ended here and some dialogue is lost)

Understand that what we have to say is going to be understood by certain groups of entities and will be taken in a way of understanding that perhaps this same large grouping of entities would not hear by reading the Bible. We say nothing different. We do give elaboration on many concepts so that we do serve a function of giving a higher level of information, but it is based, again, on the basic concepts. We simply take the concept and give you an advanced type of knowledge about it.

But before we give an advanced level of information, we give the basic concept, and we work up through that concept, much like going to school and you learn arithmetic in your first grade. And at that first grade you do not want to know that arithmetic is anything more than what is being presented as one and one equals two. You do not want to know about the advanced areas of arithmetic ~ mathematics, you see. But as you learn one level, and you have that knowledge, then, if you want to learn more, you know that it is available, and that is the function that we serve. We now present the basic, and we have begun, and we will do this over time now, to present the higher levels of the same concept.

And that is a bit of what makes us different, but there are many others who are speaking through at this time who are giving information geared toward certain audiences, for what you receive as information may not be received by others, and that is perfectly all right. There is no need to force the information onto anyone. There is no imposition of the information onto another ~ simply that it exists, it is available, and if you so desire, added information can be given, as many of you have learned in your private sessions.

There certainly is a large difference with being here and being peaceful and watching Jimmy Swaggart, who is obviously not a well person.

Ah, but that is a judgement, my love, for he serves a purpose. His purpose is to reach certain audiences, and he serves a purpose.

But the kind of message that I am trying really to understand that you are giving is basically the same as his, except that one is presented in one fashion and the other is presented in another fashion.

Yes. It is presented to the appropriate audiences, for every entity is at their own point in their path and their own levels of understanding, and entities group together in understanding and come into certain groupings in order to advance their understanding of particular areas. And thus it is that those who would come into the vibration of Waith and Company for information have, at Soul Level, sought out the type of information that we present. There are many who would not want to accept that what we say is no different than what others have said and that the theme is the same throughout.

A Discussion Of The Five Kingdoms

You said that you report to Amelius, who Jesus was a part of Amelius' energy. Why do you report to the entity who was Jesus rather than Buddha or Mohammed or Moses or Krishna?

They are all part of the Amelius entity. Amelius, as it is referred to, is a common frame of reference. It is an easy frame of reference to embody the incarnations of the great, what you would call, religious leaders throughout this incarnation. Amelius is one of the Five Leaders of The Kingdoms. There are five kingdoms currently in the illusion of The Universe, and each of those kingdoms has a leader. Amelius is one of them. They rule

The Universe, if you will, and rule is used as a frame of reference, for they are the guiders ~ they are the ones that keep order in The Universe. It is their responsibility, each of them, to create the illusion for their kingdom and to control the illusion. You see, as you all know, there is no such thing as coincidence. It all happens for a reason. And understand ~ think of each of these leaders as the director of a play, and they must keep all of the actors and actresses in the right order, you see, and all the props that go along with it must be proper. And this then is a continual situation.

Each of the kingdom leaders meet, if you will, periodically at, oh, let us say, a roundtable. They have a conference table, and they meet and they work with each other to make certain that the total Universe is running as it needs to. This is a very simplistic way of describing it, and it can only be used in earth plane terms for a frame of reference, and they each then have their own kingdom.

Now, each kingdom has a hierarchy in the same way, and it is only kept for order, these kingdoms. It does not by any means indicate that one kingdom is better than another kingdom. There is no competition among the kingdoms, but rather set up as an organization, if you will. And each of the leaders is, as you would envision it, a part of The One and they, in actuality, are One with The Universal Consciousness. However, they move in an out, if you will, without having to be encased ~ their energies not needed to be encased.

Now, each kingdom has an Angelic Force, and this Kingdom of Amelius is ~ has an Angelic Force, and there are many what you would call Archangels in this Angelic Force. The Angelics have many levels just as any organization has. An Archangel is the Highest Level beginning with the word that has been given to you all as Cherub, Angels in Training almost, you see.

And my position as an Archangel is at the same level as other Archangels, and we all report to Amelius. There is another level between Amelius and the Archangel, which is the level reserved for the entity, the energy form that is in training to take over Amelius' position, and we work through that particular level also. We report to that entity. And thus, I am no different than any of the other Archangels in that we report to Amelius and we receive our information from Amelius. That energy of Amelius contains the Souls, if you will, of all of the great leaders in this kingdom. Every kingdom has their own group of religious leaders.

Is Amelius going to retire? 😊

Oh, but of course. It gets boring after a while.

Are these kingdoms that you speak of other planets, and if they are, what planets?

To describe kingdoms for an orientation session would truly confuse, for even for all of you who have been absorbing the information, the true concept of kingdom, as it is, would be very confusing. So, that is an issue that we must work up from basic. Try to understand kingdoms as little turfs of territory. This is the best frame of reference perhaps.

Waith, Would You Explain To Us Who Abalma Is?

Indeed. Abalma is the twin flame of Mushiba, and he, also, is in the final incarnation. He and Mushiba, at earth plane, work as partners in the business that is for the Community of Terra Lux, and they have a very, very special mission that they have taken on in relation to the mission of Waith and Company. They have very specific roles, and many who meet Abalma initially become confused, though less and less now, of course, that he is the twin of Mushiba, for he presents the earth plane and Mushiba represents the spiritual ~ and they, however, must show the combination. And thus, you will see Mushiba being very what you would call earth plane and Abalma becoming very spiritual.

They are very, very high energies, and they present a very amusing contradiction in terms very often. And it is Abalma's responsibility and his mission to show that spiritual growth does not mean that you must not be entrapped by the earth plane, that if you smoke, and you drink, and you do all these things, that you certainly could not be spiritually advanced, that you must ~ you must not eat meat, for example ~ you must be vegetarian in order to be spiritually advanced, and if you do any of these things that become judgements of others, then truly you are not spiritual and, "Only I who am a vegetarian ~ " and, "I who am this and that and the other thing ~ I am truly worthy of being spiritual and growing spiritually."

But, of course, Abalma puts all that by the wayside, for he shows, this is part of his mission, that the balance of earth plane and spiritual is a constant working, and it balances, and that the important aspect of being on the earth plane is utilizing the opportunities that the plane presents for spiritual growth, for as you behave on the plane, so do you advance in spirit. And many of you now, as the community begins to become more cohesive, are meeting Abalma. And they are twin flames ~ they are the same energy. It is hard to believe at times, isn't it? ☺

What other questions do we have?

Where Does Mushiba Go When Waith Is In The Encasement?

There are times when Mushiba remains within the general vicinity of the vibration. Understand that the energy moves out of the encasement for the most part usually, and Mushiba then goes into other dimensions, always busy however, never just floating around, but rather goes to learn other things while we give you information. There are

times, however, when Mushiba remains within the vicinity so that certain information that is being relayed will be with her at a conscious state. For the most part, however, she is not around, nor does she need to be.

Are there times when you are in and Mushiba is out and about that she visits us?

Oh, indeed. There are ~ very often, her vibration will simply move about in the general vibration, and that is occurring now. We have brought Mushiba back into the vibration. She, of course ~ she would prefer to just stay out there indefinitely. What other questions?

Can any spirit enter Mushiba's body?

Technically, yes. However, it is not allowed. We are not allowed to enter without her permission. And we have formed an agreement with ~ through Amelius, that no other entity will attempt to enter through except that which is designated by us and Mushiba. There will be times, perhaps in the future, as you would call it, that an entity other than who is with Waith and Company will be allowed to enter, but it will only be by permission.

What is the difference between speaking in tongues and channelling. Do you want to address that?

Why don't we wait on that one, Limera? That is good to have on the record for the transcripts, for as you work through all of this that we have discussed, quite naturally, you are going to cut out things, and you are going to say to me, "Waith, this was not necessary." The time has been rather lengthy and perhaps we should then give attention to that particular topic, if you feel that it would be more beneficial to be answered, than perhaps another question that was answered.

Also, Waith, you have not really talked about The Shift as part of your mission. I do not know if you want to do that tonight or some other time.

The Shift, indeed. Now, this is giving you all very good learning, isn't it, now, that would it not have been appropriate to have asked that question at the beginning since it seems to be the topic of the conversation at most every Public Session in one way or another?

It is taken for granted now.

Yeah, that little minor thing that we have been talking about, by the way! 😊

By the way. We have presented to you all some interesting opportunities in this session which is why we have indicated that there will be a few practice sessions, for it is not easy now, is it, to encapsulate what we are all about?

And so, now the responsibility comes down to those of you who would want to take it on, to go through this session and to determine what you want, and what you do not want, what was not discussed and what you feel needs to be discussed. And as we said upon entry, we will take as many practice sessions as we need to. It is a beginning, my dear ones, a most beneficial beginning, for without the beginning there can be no advancement now, can there? Perfection comes from trying and trying and trying.

Well then, perhaps we will depart for now. And why don't we plan for the next practice session to occur in that which is two weeks from now so that you can plan accordingly, and it will give you the time that you would need to reassemble. Indeed.
