## The Second Practice Session For Video

### Waith, Could You Tell Us ~ Who Is Waith And Company?

*Waith and Company is composed of seven very distinct entities. I am Waith, as we prefer to be referred to for the vibrational attunement ~ and I am, as you would say, in charge of this. I come from The Angelic Force and am an Archangel as the frame of reference is known on the plane. Accompanying me in this mission are six others who are at various stages of advancement. Some are in The Angelics and others are not ~ others are preparing for entry into The Angelics ~ and each serves a very particular mission for information dissemination. Our purpose is to assist entities in an understanding of the balance between spiritual and physical, and to understand that one is not mutually exclusive from another.*

*We are also here to assist in the vibrational attunements necessary for entities as the approaching shift occurs, at which time the Planet Earth will shift on its axis creating a cleansing ~ the final step in a process that began approximately three to five hundred earth plane years ago. And we are here to be of assistance to aid entities in their movement along their own path in whatever way is appropriate for them.*

*We are not here to give answers. We are here to give guidance. We are here for those to seek counsel. We are available to present possible techniques of value that can be utilized by an entity in the attainment of their own spiritual growth. We are here to Be Of Service, and we serve that which is called the Community of Terra Lux. They do not serve us. We serve them. And any who would want to be a member of the Community of Terra Lux is able, for there are no entry requirements.*

*Thus, our mission is to be with you through The Shift and beyond, for after The Shift there will be preparations for The New Illusion that will present itself on the earth plane. And thus, we are here for the duration.*

### Why Do You Refer To Cheri As Mushiba?

*Mushiba is a vibrational name, and the entity, Mushiba, chose to use the vibrational as an energy connector, for those who would be coming into the greater mission would feel at spirit level the energy that comes from the vibrations that result from the utterance of the word Mushiba. It is also true of the word Waith, as you would know my vibrational name. And thus, it is for vibrational attunement.*

### Could You Please Explain To Us How Mushiba Began Channelling?

*Mushiba, in this lifetime, went through a very planned and organized process in preparation for this particular process. Understand that, for Mushiba, this has been done many, many times in other incarnations, and it is quite natural. There were certain physical preparations, as well as spiritual preparations, that needed to occur. The process of channelling is one that can be accomplished by any entity. It simply requires the desire to do so and the commitment and an acceptance of the responsibility.*

*The preparation that Mushiba underwent for this was rather dramatic at both spirit and physical. And it was planned much, much time prior to entry in this incarnation that at the time of the cleansing of the planet that the dissemination of information necessary for this particular time frame, and the scenario that is being played out, needed to have this form of communication rather than my being incarnated, as has been the case in other lifetimes, that we would work through this way for lessons to be taught ~ and for entities, also, who will be remaining after the cleansing to have a far greater connection with other dimensions in a way that is not in awe. There is not the feeling that an entity coming from a dimension other than the earth plane is to be revered or bowed down to. We are here, through Mushiba, to help demystify this attitude and for us to be accepted as we are, and that is, simply another energy form.*

### **Where does Mushiba go when you come into her vibrations to speak through her?**

*Any place she wants to go! ☺ Usually, as far away as possible. Several situations will occur. For the most part, Mushiba is out of the vibration and in other training situations, or Being of Service in other areas, so that she may, in fact, be quite far away from all that is occurring. There are other situations in which she will stay very close to the vibration in order for certain information that is being relayed and passed on for her to hear, so that at conscious level she may also be of assistance. There are many times when, for example ~ as is occurring now ~ she is visiting with you at spirit, several of you. As we speak, her energy is playing with your energy. So, she has remained in the vibration.*

### **Waith, Can Any Spirit Enter Mushiba's Body?**

*Technically, yes. In actuality, no ~ for even we must receive permission. We are not able to simply enter in at will without permission. Mushiba is of an ability at spirit to enable herself to be protected from any entities who might want to take an opportunity to jump in. However, because of the connection and the protection that we also provide, that situation would not occur.*

*With others who are also in the process of channelling, whether it is another entity such as myself or simply their Higher Self, or one of their guides, there is a caution that is always given that some entity other than that who is being given the permission would take the opportunity to jump in, if you will. There must be vibrational attunement for this process to occur. If an entity were to enter in without that vibrational attunement it could create disruption, not only for the physical encasement of the earth bound but also the electromagnetic energy that would surround the entity attempting to enter. So, there*

*is a caution given from both ends. There will be occasion in the far future, perhaps after The Shift has occurred, that there will be other entities who Mushiba will give permission to enter through. For now, it is simply Waith and Company.*

**Waith, can you introduce the other members of Waith and Company now?**

*Oh, they have been jumping around waiting for the opportunity to present themselves. And what we thought we would try this time ~ rather than asking the questions of them as they each enter and asking "What is your purpose?", that each will enter and identify themselves and give a brief description. Yes. As we did in the first practice session, we will raise the encasement and be in a standing position for the six to enter in, so whatever adjustments need to be made with this mechanical device ~ I will return shortly after the others have come in to introduce themselves. As is the process, it is now quite easy for this to occur ~ and understand that because of the attunement that has occurred with Mushiba that the comings and goings of the others is easily obtained without time frame between entry and departure.*

### **Farena Enters And Talks About Her Mission Within The Spirit Group**

*Farena: I am Farena. I am here to give you happiness and joy, and I am here to help you in understanding color and music and how it is vibrationally attuned to help you in your own spiritual growth. I can be called upon whenever you have a question regarding color and what is right for you for color and music. That is really all I need to tell you about myself ~ for now.*

### **Jenjura Enters And Talks About His Mission Within The Spirit Group**

*Jenjura: I am the entity termed Jenjura. I am the Librarian of the group. I am the entity who goes to search The Universal Consciousness for the answers that are posed to the others in The Company. Also, Waith will help me in my own learning by asking me to obtain the answer, even though he would already know the answer. Thus, I do all the research. I am not allowed that often to come in, for I must be in what you would call the shelves of the library seeking out all the answers. You may all call upon me in your meditations to ask questions, and I will then find the answer and give that answer to your spirit guide or directly into the Higher Self, you see. So, I am available for that function.*

### **Susan Enters And Talks About Her Mission Within The Spirit Group**

*Susan: I am Susan. I am represented by the color blue ~ and my purpose is to assist in group healings, and I serve my primary function at spiritual level to assist entities who are involved in a Group Balancing, to assist you in healing. You may call upon me at any time ~ and I work most closely with the next entity who will enter in.*

## Jacques Enters And Talks About His Mission Within The Spirit Group

*Jacques: I am Jacques. I am represented by the color green. I also am a healer. I, however, work with individual healing. Thus, when you have an imbalance at an individual level, you may call upon me. Susan and I work in conjunction with each other to help you in your healing, as well as working with Farena in her mission of color and music. You may call upon us whenever you need our assistance at an individual level. We also work in harmony with The Animal Kingdom, and we aid our comrade who is now going to present himself.*

## Francis Enters And Talks About His Mission Within The Spirit Group

*Francis: I am Francis. (Francis holds up the middle three fingers of right hand in greeting) I was last known on the earth plane as Francis of Assisi. I am here to help The Animal Kingdom and the balancing and the understanding of the responsibilities of all the kingdoms toward each other, but most specifically The Human Kingdom and The Animal Kingdom, and to aid in the lessening of abuse from The Human Kingdom to The Animal Kingdom to assist you all in your growth as you are of service to The Animal Kingdom, and they to you. I am aided by the others in this responsibility, and we are all given a special type of guidance from the final member of our group.*

## Bathusela Enters And Talks About Her Mission Within The Spirit Group

*Bathusela: I am known as Bathusela. I am represented by the color pink. I serve as a special assistant to Waith in The Angelics, and I am here to help smooth over and soothe the vibration and to Be of Service in very special areas of imbalance with female concerns, for there are many, many issues currently being resolved by entities coming onto the earth plane in female gender. I also aid the males in understanding their role in the balancing with the female. When you see pink you will see that which is symbolic of femaleness. You may call upon me, male or female, to assist you in the understanding of the trepidations that occur between the male and the female.*

*Waith: Well, you have me again. 😊 I am back. Now, let us proceed.*

## Can You Explain The Difference Between Waith Versus Organized Religion?

*How appropriate. 😊 (The person asking the question is a minister) That which we give as information is harmonious with all information that has been given through from The Universal Consciousness, and that which is referred to as organized religion is simply another vehicle by which information is given to entities. We do not consider ourselves in a position of them against us. Unfortunately, many of them consider us against them. This is not the case, for information that is given from us carries the same common theme as is at the root of all that is organized religion. If you were to look at the beginnings of any religion that is now known as organized, you would find the same common theme,*

*that being Unconditional Love and a seeking of a higher life, if you will, a better life ~ you will find the common theme.*

*What occurs over time is that the theme begins to lose its meaning because of that which is called bureaucracy, that which is called self-interest and, of course, the power struggle. This is all a natural occurrence. This is what must be, for entities find themselves at any point on their own path back to The Universal Consciousness, and as a result of that, there is a requirement for certain types of lessons and experiences which can, in fact, be obtained by becoming a member of a particular organized religion. Remember that all the organized religions had their beginnings in unorganized groupings, you see, and that that which comes through from us, after the cleansing has occurred, will in the eyes of many be an organized religion.*

*Now, the difference at this point, however ~ and this is true of any grouping of entities who share common beliefs ~ the difference now is that we do not give out what you would call dogma. We simply give out information to aid you in your own growth. We do not tell you that you must do this, and you must do that. We do not give you what so often could be referred to as the one truth. We aid you in finding your own truth as it is best for Self ~ and by finding one's own truth, you then are of service to other entities and your quest toward achievement of Unconditional Love strengthens.*

*Now, not all organized religion is to be scorned at, for we would not scorn at any group who would attempt to aid an entity in their path back to The One. We are a part of that total process ~ and thus, it is important that you receive your information from many sources so that you are then enabled to reach the truth that is your truth. And you will find, as is the bright entity who asked the question, many who are a part of organized religion who are spiritual seekers and spiritual healers, and they also make their attempts within the organized structure to bring people, such as are gathered here, to their own truth.*

*There is the understanding that dogma is necessary for some entities, for that is what they must have at that particular point in their path as a way of direction ~ and it is also very complex, for one is also balancing from other times when they are involved in what you might call very dogmatic situations. Understand that there is nothing wrong with dogma if it is appropriate for the entity. What occurs, however, with entities who are of this thinking, where there is only one truth, is that those who would not be in agreement with their one truth are considered evil, that there is something wrong with that person ~ they are not good.*

*All entities are good ~ each has their own truth, and the more that you broaden your own awarenesses of that which cannot be seen and touched and felt and heard on the earth plane, the greater will be your ability to love unconditionally and the greater will be your ability then to not judge. For we judge not what your beliefs are ~ they are your beliefs, and we are not here to change your beliefs. We are here to assist you in your own awarenesses.*

## Describe What Makes The Difference From A Cult

*Well, you know the definition of cult, as it is currently on the earth plane, has a negativity about it, meaning that entities would gather and be controlled by a leader and that they would give up their worldly possessions. They would give their money, as you would call it, to this group, and that there is mind control evident. Given that definition, the Community of Terra Lux and the groupings of entities certainly would not qualify as a cult, for we have been most clear from the beginning that, for example, there would be no money charged for our disseminated information.*

*What occurs with groupings of entities ~ and understand that by the earth plane definition a cult could be any two or more entities who gather on a regular basis to share common beliefs, you see. You all gather out of common interests. You are searching for spiritual growth and awareness. However, as we had mentioned earlier, entry into our grouping has no requirements ~ and the purpose of Mushiba's twin flame, Abalma, is to help in the understanding at the illusionary level that physical and spiritual need to work together, and that one does not need to be, let us say, a vegetarian in order to attain spiritual growth.*

*We are here to help dispel, in fact, the attitude that the only way to gain spiritually is to behave in very specific ways, that if you have any earth addictions ~ chocolate, caffeine, oh, all of these things that are a part of the earth plane experience ~ that if you have these that there must be something wrong with you and you cannot grow spiritually. You see, this is ridiculous, as you would say on the plane. And, thus, the Community of Terra Lux does not make it a requirement that you adhere to certain principles, certain tenets, if you will, certain requirements. It is not a cult, then, for we do not require you to behave in a certain way in order to be a part of the group, nor do you need to believe in a certain way. You can challenge anything that we give you for information, and we will not throw you away and say, "How dare you challenge us?" It is important to question, for in the questioning you gain in your awarenesses. Nor is anyone in the community going to win the lottery. ☺*

*And, thus, a part of the mission is to show that by combining spiritual with the physical, the material needs that are required by an entity can be achieved through a common goal, and through working together as a community to achieve what is needed for Self as well as the community, and that it is in this spirit of cooperation that the growth will occur. And thus, if anyone were to ask you if you were a member of a cult, you would, as has done so often, say "Well, look at my bank account. I have not emptied it out yet." This does seem to be one of the issues of the subject of cult as it is known on the earth plane.*

## Would You Discuss The Pole Shift?

*The pole shift, or as it is referred to ~ there are many different references: It is sometimes referred to as the cleansing, it can be referred to as the illusion change ~ is the ~ is actually a beginning, and what is occurring in an earth plane time approximately eight to twelve years on the plane, the earth will shift on its axis and create an opposite polarity. There are certain areas on the Planet Earth that are designated as safe, in that there will be shelters of various types to provide safety while the changing is occurring. For example, the area in which Mushiba and the Community of Terra Lux at its core are geographically located is a safe area ~ and part of the mission of the Community of Terra Lux is to provide shelters and to assist in that time when The Shift occurs.*

*It will be a very brief period of time as measured on the plane, and upon entry back onto the surface of the planet, there will be a New Illusion, as it is called. This area, geographically, will be tropical ~ and you have been begun to see the changes in what is called temperature. Now, when The Shift occurs, it will be the end, actually, of the cleansing that the earth itself has been going through. It has accelerated now, and you will see evidence of the cleansing in three major types of weather patterns, those that relate to what is called tornadoes, earthquakes and hurricanes. There has been an accelerated amount of activity in these three areas.*

*The Shift is also a vibrational attunement for the planet. Thus, it is that, vibrationally, the planet will increase, and those entities currently incarnated must be of the same, at a minimum, vibrational attunement as the new planet's vibration in order to remain after The Shift. For those who are not vibrationally attuned, they will be required to leave. This is not indicative of a negative if an entity is not vibrationally attuned. It simply means that they are not vibrationally attuned ~ that is all. There is nothing negative about it.*

*For those who have a vibrational attunement for The New Illusion, they will have the choice of either staying or going. There will be many who will decide that, oh, they have had enough and they want to leave, and they will come back again another time. There will be others who have chosen as their mission to remain to begin the building process of The New Illusion. The New Illusion simply has a new set of rules and guidelines for the learning of lessons. We have given out much information regarding The Shift. And thus it is, we are here as a part of the total Universal Consciousness mission for preparation for The Shift.*

### **What Is An Angel, And Why Are Angels Taking To Us In This Manner At This Time?**

*An angel is simply an entity in a particular vibrational field that has been given the responsibility of guidance and protection of the particular kingdom in which they are assigned. We speak now through, more and more, so that entities will begin to feel comfortable with information coming from The Angelic Force and to have an understanding of the function and the role of The Angelics. In The New Illusion there will be a greater comfort zone, if you will, of speaking with Angelics.*

*Each entity, upon entry onto the earth plane, is assigned an Angelic. This Angelic is separate from the Spirit Guides that each entity has ~ and for the entire sojourn on the earth plane, the Angelic assigned to that energy form is responsible for that energy form ~ and that takes on the form of making certain that the Spirit Guides are properly trained for that particular entity. And, on occasion, the Angelic assigned to each of you would present itself in either the meditations, or in some cases in physical form, to help you along in your path.*

*We are ~ understand, this is not a glamorous job. We have tremendous responsibilities, and we have been given the advantage of having information available to us at this level, but we must use this information in the proper manner so that we do not impose upon your path, for in our zest to want to help you grow and learn, we could possibly give you information that would be of an imposition, and it would, therefore, cause you to do something that would not help you to grow, strengthen, and learn. Thus, we are here to Be of Service when we are called upon. If you ask our assistance, we are then able to help you. We are not able to come to your aid unless we are asked. We are able to protect ~ but there is a fine line, if you will, between protection and aiding.*

**Waith, would we be able to find out the name of the Archangel through our Higher Self and meditations ~ the one that is assigned to us?**

*They are of The Angelic Force ~ they are not of the Archangel Level. The Archangels are responsible for The Angelics. And, yes, you are able to learn the name or have a connection, if you will, of the Angelic who has been assigned to you. Some of you already have achieved that, and you are in communication with the Angelic who serves you.*

**Waith, did you say your angel can appear to you physically, and if so, how would you know that that was your angel?**

*Sometimes you are not meant to know that it is, for the Angelic is there to guide you in a most special way, and it is usually during a time of difficulty that the Angelic would come to your aid in the physical. Often it is a situation of a manifestation. They simply materialize and then dematerialize when no longer needed.*

---
