## Waith Discusses The New Weather Patterns About To Occur With The Upcoming Spring Season

*We come in to be with you during a very interesting vibrational transition that is about to occur on the earth plane, and that is what you call the changing of seasons, and there will be a very significant energy transference that occurs at the time of this transition which you all will be celebrating through a meditation and will be able to connect with this journey into that which you call Spring, and it will bring with it very, very what you call hot weather. And it will, once it has arrived, settle in for quite a duration, and it will come in with the new energy in this transference. Just a little weather update for all of you. ☺*

*You may be curious as the signs of The Shift present themselves in much greater concreteness now. And we know, that on occasion, there is a question that comes from the gathering as to what will be the weather on the earth plane. And as is evident now, most have no idea what the weather is going to be on the plane. In any event, it will be a time of vibrational change for many on the plane who will need to accommodate their energy field to the increasing heat that will prevail in The New Illusion. Thus, it is an opportunity for that type of electromagnetic adjustment that will then transfer itself into the physical encasement.*

## The Earth Plane Connection, Continued ~ Encasements In The Various Kingdoms

*Now. As we continue in our discussions for this year on the plane, The Earth Plane Connection, our focus of discussion in this session is related to the connections of the various encasements on the plane that make up the kingdoms, as we refer to them, The Animal Kingdom, The Mineral Kingdom, The Plant Kingdom, Air, Fire. The elements that you are all familiar with are all encasements of energy, and we reemphasize, as we begin this discussion, that all energy is equal. Simply being in the human encasement does not make you as a human encasement superior to any other energy, for all energy comes from The One, and all energy, therefore, is one and is connected. It is simply encasements that are taken on in various kingdoms for lessons to be learned and scenarios to be played out.*

## All Energy Outside Of The One Is Encased ~ Intelligence, Soul, Memory

*The Human Kingdom is perhaps the most arrogant on the earth plane, as you would describe the personality, in thinking that it is superior, and therefore, in control of the other kingdoms that appear different, or appear to not have what you would call intelligence. Intelligence is an encasement in itself, and it resides within an encasement. That which you call memory is indeed an encasement, and it is a part of the Soul's memory which is also an encasement. The Soul is an encasement, my loved ones,*

*remembering that energy in The One is total Being and that anything outside of The One is an encasement. Energy outside of The One is encased.*

### Connections Of The Various Encasements On The Plane That Make Up The Kingdoms

*Now. We therefore take on encasements within encasements. To understand this, you would think of the analogy of placing a box that is small inside another box that is small, or placing within a circle another circle, and that it is infinite in the number of encasements that can fit within an encasement. All energy currently on the earth plane encases itself within each other. You are all encased within a larger encasement.*

*We mentioned awhile back that the human is not the end of the food chain, as you call it, on the earth plane. Rather, the food chain is not something that moves from one end to another end, thus, signifying beginning and end, but rather, is a circle. Now. Understand the implications of this, for the circle is neverending. The circle is The One, and therefore, there is no end to any food chain, as you would call it, but rather, in the form of dimensional energy the loop effect takes place, and all feed on the other.*

### Creating Your Own Energy Circle, Starting Small And Expanding As You Learn And Integrate

*Just as energy feeds on energy, so too, do encasements feed upon encasements, all contributing, my loved ones, to the greater good. It is the feeding effect, one upon the other, upon the other, upon the other, that creates expansion and growth. For the circle that begins small, widens as the process occurs, and each energy begins itself as a small circle when it separates from The One. And in the sojourn on the earth plane, the connection that each energy who journeys on the earth plane, each connection creates larger circles as your sojourn increases.*

*If it takes you ten million earth plane years to complete your sojourn, your circle increases proportionately to the lessons that you have learned, and, that you integrate within all of those encased on the earth plane so that a part of your energy also has within it the energies of certain of The Animal Kingdom and certain of The Mineral Kingdom and certain of all the different encasements for energy on the earth plane. And there is a connection of spirit that gives strength, then, to the energy as it begins to expand itself. It does not mean that you do not ~ that you are not working on your own issues as a human, and the animal works on their own issues as animal, and as mineral, etc., for that separateness is very much there. But, each makes its own Energy Circle that comprises all of the encased energies which then enables each circle, each energy that is you, to call upon when in need the energies that you have connected with from each of the other kingdoms, and they you.*

### Choosing Your Energy Circle To Integrate With Other Kingdoms

*Some on the plane have developed very strong connections with The Animal Kingdom, with The Mineral Kingdom, many of the kingdoms, and are able to communicate to the greater kingdom through their own connection that is a part of their energy. Each on the earth plane has the potential for communication with any other kingdom that is encased on the earth plane. It simply becomes a matter of development of that ability, increased awareness, increased vibration, so that potentially, each of you has the ability to freely communicate with your own Energy Circle to then expand into the greater kingdom.*

*There are some, for example, in this gathering now who have developed their abilities to communicate with The Mineral Kingdom, and that first began by development of their own Mineral Kingdom connection, and once that was established, connection with the greater Mineral Kingdom began to occur. Some energies focus on developing communication with one or two of those Energy Circle companions.*

*Other energies decide that they want to develop the entire Energy Circle. It takes many lifetimes, of course, to do this. And it creates, then, a tremendous growth potential. It is most beautiful and most positive, for when there is the sense of harmony within your own Energy Circle, you then are able to respond to the needs of other Energy Circles. It creates a very heightened awareness, and it presents to you the opportunity for greater power to heal, to Be of Service ~ for all energy has intelligence, or memory, and those energies that you have made a part of The Circle contribute their own memories from their own experiences, thus, enabling you to have the greater advantage of a far more advanced knowledge than simply your Self, your own soul memories, you see.*

*All energy has not only their own soul memory and their own energy field, but all these other energies. And just as you as human are able to connect with the others in your Energy Circle and learn from them, so too, are they with you. There are many on the plane who would describe their experiences of connection with particular animals, for example, and if there is that sense of connection with a particular animal, it is most appropriate for you to believe that it is that energy that is a part of your Energy Circle.*

*Those on the plane who have chosen accelerated growth during this time period on the plane will also understand that the entire Energy Circle has taken on accelerated growth. Some of you may feel, actually feel, the earth as it undergoes its cleansing. Some of you may not. The difference simply is that if there is a feeling of the pain that the earth is going through, it is that your Energy Circle connection to the earth has been developed and is strong, and therefore, you have a direct connection with the greater energy known as the earth and its components.*

*Not all Energy Circles choose to develop themselves. They may choose to remain hidden from each other for any number of reasons, and it may be indeed for the entire connection with the earth plane that this occurs, where there is virtually no awareness of the other kingdoms that make up The Energy Circle of each. That is one scenario.*

### **Levels Of Awareness Within Energy Circles Encased Within Energy Circles From Other Kingdoms**

*Other scenarios simply include various levels of awareness of the others included in The Energy Circle to the point of total awareness of the individual energy from the other kingdoms that make up The Energy Circle, not just the general energy kingdom, so that there are many on the plane who know specifically the energy of each in their Energy Circle. They may even have a name, and there is free flowing communication to the degree that it is not even thought about, but is just simply felt. There is not the awareness of a conversation going on, but rather, simply a knowledge, an awareness, that enables you to feel connected to all on the earth plane. Within these two extremes are all of the variations, and each of these variations are each of you at various points in your path, as we have indicated before, and you are all here to help each other in the development of awareness of The Energy Circle.*

### **The Energy Circle Is Unique To The Earth Plane ~ Other Training Grounds Have Other Methods**

*We present to you this information that goes beyond discussion of electromagnetic fields in terms of you being alone. You have a group, each of you, on the earth plane. This is unique to The Earth Plane Connection. When you are not on the earth plane and you are in other training grounds, this Energy Circle does not exist. This is strictly for the earth plane sojourn, for other training grounds have other methods by which teaching occurs. Remember that the earth plane is considered the most accelerated for learning and one of the most difficult, but presents the greatest opportunities for growth in what you would call the shortest amount of time, as measured in any dimension. Even ten million earth plane years is considered a short amount of time to learn particular lessons.*

### **Each Energy Circle Has The Responsibility To Be Of Service To Other Energy Circles**

*Now. Included in your Energy Circle are, then, very unique qualities, unique to the extent that it pulls in the uniqueness of so many other energies, each representing a different kingdom on the earth plane. And each Energy Circle, as it develops in its strength and in its own awareness, has the responsibility to Be of Service To Other Energy Circles. It is a far more advanced theory that we give to you than is currently on the plane for general understanding, for the theory of Being of Service to Others is generally accepted. What we present to you now is an advanced application of that very simple theory, and that is that you use the combined energy of many different kingdoms to advance The Energy Circle's ability to Be of Service.*

*If you have, for example, developed your abilities to communicate with The Mineral Kingdom through your own Mineral Kingdom connection, what greater way to Be of Service than to help those who have a lesser understanding of the power that The Mineral Kingdom has toward healing and relieving of anxieties and distress, for you will be able to work with another Energy Circle in explaining the properties of a particular member of The Mineral Kingdom.*

## The Building Circles Of Strength

*And thus, your own healing is advanced, and your own Service to The Universe is advanced, for the issue becomes now not service strictly to individuals but Service to The Universe, for Being of Service to The Universe is Being of Service to Self, and thus, The Circle. For when you are of Service to Self, you are greater in your abilities to Be of Service to Others. And as you are able to Be of Service to Others in a greater capacity, you are then able to Be of Service to The Universe in a greater capacity, which then circles around, and The Universe sends it back to you, so that as you strengthen and send that to The Universe, The Universe sends back to you the strength that you have developed, and it becomes a part of you, and the circle continues, and thus, you build on your strength. And as you send it to The Universe, it comes back to you stronger, and you have a base, then, of greater strength, and it builds, and it builds, and it builds. And your motivations become greater in their spiritual context as you grow and strengthen. And The Energy Circle grows and strengthens.*

*That is what we give to you for basic information in this session now, and we would welcome discussion and questions.*

### What Is Memory Made Of ~ Where Is It Located In The Body ~ Memory Loss, Breakdown

**In my working with the physical body, I find that the body tissues themselves have memory. Is there a particular substance that is the memory carrier, such as water or a chemical? What binds memory to itself? What is the stuff that is memory?**

*Memory is Self-contained as an energy. It is an encasement within an encasement. It attaches itself. It becomes a part of the Soul memory of the individual, and it becomes a part of the greater memory banks of The Energy Circle. First and foremost, it is energy memory. Now, the way in which memory manifests itself in the encasement is determined by which kingdom it is interacting with. So, for example, with The Human Kingdom, the physical composition of the encasement is different from the physical composition of the encasement of a blade of grass. Energy wise, however, it is not. It is exact, but the physical composition, it is. So, it would, therefore, acclimate itself to the needs of the particular physical composition of a particular encasement.*

*For the human encasement, it is represented by the composition that you refer to as mucus. Yes. That is correct. The mucus that coats the lifeline of the physical encasement, that which is referred to as the spine has a particular substance that coats it, and we call this mucus. It is in this substance that the energy known as memory attaches itself to the human, understanding that as each of you are, in one instance, energy, and, in another instance, physical manifestations of energy. So too, is memory.*

*The memory that is required to be utilized from the major data bank of The Energy Circle is called upon as needed for lessons to be learned, and it is, as you might picture it, simply taken out of the computer, the stored knowledge is taken out of the computer*

*and physically imprinted. It is what you would call the printer for the computer. You physically place this, then, into the spinal mucus. This is where the knowledge is contained for that which operates the physical encasement and any issues that may be evolving around it.*

### **In Working With The Spinal Area To Help Entities Understand Certain Ailments Or Afflictions**

*For those of you who are involved in energy work in healing and in assisting entities to understand why their encasement takes on certain ailments or afflictions, it is critical that you work with the spinal area, and as you who would read this information in the future, would be developing your own abilities to read energy, as you moved your hand up and down the spinal area, you would receive the information. You would sense the information that would then guide you to the proper treatment and counsel of the individual with whom you work. Not all on the earth plane who heal in this manner of energy have this ability. It is an ability that is developed and can be developed simply through meditation and a conscious working with energy. There is much more that we could give you in this area for information. We will limit that at this point and pick up on it in another time when we would devote specifically to healing.*

**The mucus that you are talking about, is that what we would call the cerebral spinal fluid?**

*Yes. It has a thicker property than is generally acknowledged from those in the medical community on the earth plane.*

**So the ventricles would be involved in that memory and in the consciousness of a memory.**

*They would house certain components of the memory, much like you would think of having a storage room with little rooms off to the side to house specific information.*

**What is the cause when someone has a memory loss?**

*What causes an apparent memory loss can be attributed basically to a disassociation within The Energy Circle with itself at energy level. And this occurs. Oftentimes, however, it is very temporary. It may be ~ when we say temporary, it could mean several lives. That is temporary in the scheme of the greater sojourn on the plane. It simply means that there has been some type of disassociation at the energy level with each of the components in The Energy Circle, thus, causing a breakdown in the general data bank, or computer that makes up The Energy Circle and all of the individual memories that contribute to that. When that occurs, it creates in the entire Energy Circle a breakdown. It is a very common occurrence for energies to have breakdowns. They may last what you would consider an instant. For example, you may suddenly forget something, and momentarily this occurs, but then it is back instantly. Or, you forget something and you remember it months or years later. There is a reason for that*

*occurring and that is to help in the healing of a particular energy who is a part of The Energy Circle. Once that healing has occurred, the memory returns.*

*Oftentimes, you have experienced remembering in dreams, in the dream state, or suddenly you will be doing some other activity and something that you had forgotten quite some time ago suddenly returns. It explains, also, the phenomena that you experience where you begin speaking about a topic and you say, "Where did that come from? I did not know that." And we have in the past, and many others who speak through from higher dimensions, have said that the Soul memory will kick in and give you information as you need it, and this is true in its simplistic form.*

*We present to you the advanced. It is not totally advanced. There are more advanced discussions that we would have, but this is more advanced than you would be accustomed to, that as The Energy Circle, which may have had a breakdown ten lives ago, has now healed itself, and it becomes appropriate for you to have the memory regained. So, it is no different for you to suddenly find yourself knowing something that you did not consciously have gained in this lifetime, than it is for you to have forgotten a particular recipe, and how to achieve ingredients to that recipe, for the memory to be there in this lifetime, just as the memory from another lifetime would come flooding in, you see.*

### **Trauma Within Your Energy Circles Causing Disassociation And Reassociation In Learning Lessons**

*The cause for disconnection, or disassociation, is created by particular traumas that impact upon The Energy Circle that can come into any one of the encasements. It is not necessarily coming from your own specific energy. It could come from ~ let us say, that one of your energies is a flower energy. It may be that whatever has occurred within the electromagnetic field of the energy known as the flower that is a part of your Energy Circle, has created a loosening of the flow of energy.*

*The very fine thread that connects all energies back to The One is, in miniature, in The Energy Circle, and while there is not at all a severing of that cord, there is a loosening of it, a slacking of it, that does not allow for a free flowing of the energy within the circle. But rather, there would be ups and downs that create stoppages when it is in a bottom point that then creates a difficulty for the flow of energy to move up. And sometimes, the cord can be firmed again very easily within The Energy Circle, and other times, it takes time, as you would call it, which could be many, many lifetimes, or could be within a particular experience, and once that cord has firmed itself again, the energy flows.*

*This is how we would refer to disassociation, for what happens, then, is that if you were to picture a circle, and picture ten different energies imprinted upon this circle, each one connected very closely by this thread, there is free flowing energy occurring, and harmony is in existence. Something occurs, and this becomes very unique to The Energy Circle, that places a burden, let us say, something heavy is placed upon the part of the cord between two of the energy encasements in a circle, and that heaviness brings the*

cord down. Then there is less of a connection. There is a separating apart of the energy, two energies' components, that has occurred as a result of this heaviness coming between them. Once that is lightened and lifted, then the cord becomes strong again. Most Energy Circles, in their work on the earth plane, find themselves with these little indentations. This is a part of the strengthening, for an indentation occurs, this is, in essence, a lesson to be learned, and when the lesson has been learned, the pressure is off, and the indentation goes back to the straight line of The Energy Circle.

### How Do You Bring In Other Various Energy Kingdoms Into Your Energy Circle?

Ah. That is all very, very organized, as you would expect. Nothing less than organization from The Universal Consciousness, for when you, as an energy, make the decision to come onto the earth plane, and remember that not all energies who come out of The One come onto the earth plane, but once you have made that decision, there then is a consultation with your Angelic Protector who calls in other guides and others who are especially trained for counseling in the development of an Energy Circle, and there then is the calling in of other energies who also have said they want to go onto the earth plane, but they do not want to go on right now, let us say, as a human. They want to come in as any various opportunity presents itself, and that there then becomes a discussion that all parties concerned agree that they will be a part of each other, and they will form an Energy Circle.

And there is also agreement in the fact that all who are a part of each other in a Circle agree that they will take on the encasement of those other kingdoms as part of their sojourn. And that when, for example, you as a human finish your human sojourn on the earth plane, and all the others in your Energy Circle have completed their sojourn in their particular kingdoms, all go off the earth plane and reassemble. There is a return to The One temporarily, momentarily, to reassemble and to gather up the, let us say, the stamina to once again go back onto the plane, and all those who were in The Energy Circle now switch. So, one who was in The Energy Circle as part of The Animal Kingdom may now become part of The Human Kingdom, and you would take its place in The Animal Kingdom, all agreed upon.

We emphasize to you that as you look at others on the earth plane, indeed as you would look at any other energy, be it a blade of grass or a pebble of sand, you must not judge superiority, for you do not know if that blade of grass in its last sojourn on the earth plane was indeed human. It is an ultimate discussion of judgement. And also, to remember that commitment to the earth plane as a learning ground is not limited to only coming in as one member of a kingdom. It means that one must take on all of the roles of the kingdoms that have been gathered in The Energy Circle.

The Energy Circle, while composed of all of the various kingdoms that exist on the earth plane, is not necessarily demanding that you take on all of those kingdoms, but rather, that prior to the first entry onto the earth plane there is agreement made among all in The Circle as to who will do what and how each will affect each other and interact with

*each other. That has already been planned prior to the first entry onto the plane. There are many who would read our words who once were a blade of grass.*

### **Is There A Set Order Of Progression Into The Various Kingdoms Within Our Circle?**

*There is no set order of progression, my loved one. This is a false understanding on the earth plane that The Human Kingdom, therefore, is superior to, that there would be a movement from a lower kingdom. It is not thought of as lower or higher. It is thought of as equal, and it is thought of only as however you work it out with your Energy Circle. In one Energy Circle, you may find that there is the human and then the mineral and then the plant, or you may start out in The Plant Kingdom and work your way around to various ~ you may become part of the air energy. You may start out as human and then move into air or fire.*

*What we have not included in this discussion, and this will come at another time, are particular kingdoms that are a part of the earth plane that you are unaware of. Just as there are some in the other kingdoms that are unaware of The Human Kingdom, so too, are there energies that exist in dimensions that you as humans are unaware of but are a part of your Energy Circle. And just because you are unaware of them now, does not mean that you are unaware of them, but rather, encased as a human, you are unaware until you begin to expand your own consciousness and become better able to connect with your Energy Circle and the data bank that your Energy Circle has, the tremendous potential that this data bank has. And it is this data bank that connects into The Universal Consciousness.*

### **About The Preplanning Of The Energy Circle, And What Happens If There Is Disagreement**

**To what extent does the reality that we create here on the earth differ from that which was planned by our Energy Circle?**

*The Energy Circle plans the reality in conjunction with the Spirit Guides and The Angelic Protectors of each individual energy before the actual sojourn begins. There is the discussion of the various illusions that are in The Portfolio of the earth plane, and there is a scanning of those illusions that is presented as part of the planning process, and there can be, then, what you would call the sketch of the sojourn.*

*Now. This is subject to change at any moment, for as all of you know, coming onto the plane and getting into the concreteness of the illusion is often so different from viewing it from afar. And as you would view a concept and prepare the concept on paper, shall we say, and sketch out the concept, when you begin to build the model, there are differences, and thus it is in your own planning for your lifetime, and once you come onto the plane and see the illusion from the illusion itself, living within the illusion, rather than outside of the illusion, then there are constant changes, and it is done at spirit level with the entire Energy Circle.*

### What happens if the entire Energy Circle cannot agree?

*That does happen, and it does create this condition that we have called disassociation, for then there is an immediate dropping of the line, the energy line, thread, that goes through each of the energies in The Circle. Within each of those energy points that do not agree, there is the pressure, the dropping down. And in some cases, the entire Energy Circle, as you would view it from spirit, is a series of little balls, and little drops, and little balls, and little drops, and the entire Circle just looks like it is dysfunctional, and indeed it is. And there is much more to that discussion that we will present at a future time that relates to the learning of lessons, and we will relate it also to the concept that we presented quite some time ago of the process of learning lessons and the four stages of learning lessons ([April 17, 1990](#)), and we will connect this at a future time with this new information that you now have, and you will understand it in a more advanced manner than was originally presented, for the original presentation was kindergarten level.*

### Is Each Person Essentially A Community? Is The Energy Circle And The Soul The Same Thing?

*Yes. Yes. You do not need me! ☺*

### Will You Discuss The Water Kingdom?

*Yes, and water is an encasement. Water is ~ in fact, there are several of you in this gathering now who have already gone through The Kingdom of Water and you have the sense of water within you. For once you have experienced the kingdom, the essence of that experience remains with you, and in some cases very strongly. But this is for another discussion, my love, in which we will be addressing a very specific issue, and that will tie in that which we have presented in this session.*

### Is our horoscope with the water signs then a clue to what our sojourns have been?

*We cannot say yes or no to this. This is not one of those yes or no questions. It is a part of that which you choose as your entry combination and is related to another concept which we have not presented yet, and when we present that, it will then naturally flow with a response to your question. We know that there are many questions that are in your minds and we would want you to meditate upon those questions, and we will be giving in other sessions more opportunities for questions. We will balance the amount of time that we spend in presenting a concept with allowing more questioning. The information that we have given in this session was of necessity longer in its time duration from us so as to implant into each of you all the questions, for we have given information that is generally not discussed on the earth plane and is now time to be presented, discussed and disseminated to those who would understand and be ready for the information.*
