In This Anniversary Session, The Focus Is On Sending Light to Earth

We are most pleased at the gathering of energies for our celebration of reacquaintance with Mushiba and the continuation of our mission that began when Mushiba first entered onto the earth plane one million earth plane years ago. This is the final stage of that mission that we have had together, and we are most pleased to be working with you all in this particular way.

It is different from that which we have done in other incarnations. And we enjoy this, actually, for we get to make Mushiba run around the earth plane and do things that we do not have to do because we are in spirit and she is not. Nah-nah-nah-nah! ☺ We take advantage of this as much as we can. It is also very good as a learning tool for communication. As you each learn to communicate with Higher Self and Soul, and your guides and your Angelic Protectors, you realize that it is not quite as easy to hear what is being given for information. We speak of connecting with Self and Higher Self, and it is very easy to talk of this, but to actually do this is much more difficult.

And Mushiba learns this difficulty and is, therefore, able to help each of you, as you face the difficulty of connecting with Higher Self, for oftentimes, we attempt to communicate, and Mushiba does not hear it completely or does not hear it fully. And it is a learning, and it is meant to serve as a teaching tool to all of you that even the best of entities can have difficulty in communicating with Higher Self.

Now then, we, as always for the celebration, have gifts to give to you, and we also present the theme that we will be working with for the coming earth plane year. You, many of you, realized that this year that is just ending was finding the Light within, within Self and within others. And working to find the Light within Self and within others had been the foundation upon which would then lead us into this year coming in which we ask you to focus on Giving Light to Earth. It is that which we will focus on in our sessions with you all.

You have received a gift from us ~ thanks to Mushiba running around ~ and we will give you a bit of a ceremony that goes with this, as we then place into your gift an energy that will carry you through in the coming year, as you attempt to become more tuned into the earth and the changes that earth is experiencing. When we meet again in the next Public Session, we will continue to give the gifts to those who come to the next Public Session, for we purposely wanted this gathering to be very small rather than very large, as has been the case in other times. And thus, we will begin with our ceremony.

Now, there is a symbolism that goes with that which we have given to you. You find within this gold circle The Mineral Kingdom. You find a gold crystal, and you find also a rock. The rock, my loved ones, came from outside Terra Lux, and it is to show you that

The Mineral Kingdom is beautiful regardless of its encasement, and that it houses energy, not just what you call crystals, but rocks and sand.

The theme for the coming year, then, is balancing earth and its many, many kingdoms, and focusing on The Mineral Kingdom in its role of helping the earth to clean itself, and that all from The Mineral Kingdom have very special energy during this particular time on the plane. And there is the balance. Just as those in The Human Kingdom have very fluffy beautiful appearances, so too do you find a gold crystal, and so too are those in The Human Kingdom less fluffy. So too in The Mineral Kingdom. It means, however, only that the physical encasement has taken on a particular appearance and that it fits into the scheme of the kingdom.

The Mineral Kingdom has a scheme. The Human Kingdom, The Animal Kingdom, all have a scheme, if you will, in which all encasements are designed by The Universal Consciousness to be a certain way, and to house energy, and to keep you a bit off guard, thinking that if it is a particular appearance, then it must have a better energy. We are here in our mission, of course, to dispel that concept that many have.

And in the giving of Light to Earth, we focus on gold as the color for the coming year. Thus, we decked out Mushiba in gold, you see ~ this bow. And we will emphasize then, the sending of gold Light to Earth as the very highest Light of healing and spiritual attunement, and thus, the emphasis on gold. Stars, of course, represent at the earth plane level, an illumination. The gold stars that you find surrounding you in this environment are meant to simply be the symbols of gold illumination and will remain in the environment for the coming year.

For each of our Public Sessions, we will have candles lit that come from the ceremony that we give to you in this session. And each in The Company will enter in and light the candle appropriate to their color and give to you a message that will be combined as a message of hope and love to earth as it goes through its cleansing. We will first light the gold candle, and from that, each of the others will light their candle. And when we have finished, you will then each receive a gold candle and we will continue in the ceremony.

Thus, I will allow the others now to enter in and give you a greeting. And we would perhaps need just one who could be available in case the lighting process is difficult for us. We have become very adept in this encasement. We want to show you what eight years on the earth plane has done. Thus, we will attempt this. Ah, yes, this was the one that Mushiba told me to go to. You see, she communicates with me also, some of you know, sometimes in not very nice terms. She yells at me sometimes. But that is all right. Thank you, my love. It is this gold candle now ~ this we strike, yes.

(Waith lights the master candle and the group claps) Ah, now. This is the master candle then, if you will, and it is the symbol of earth energy and Light that will prevail for the coming

year. The others now will enter and speak with you, and then we will return to complete the ceremony.

Bathusela Enters To Light The Gold Candle, And Speaks Briefly Of Her Mission

Bathusela: I am Bathusela. We are here to give you the symbol of gender balancing for earth, and it is that balancing that we focus on during this coming year. We are represented by pink. Our challenge now is to find our candle. My love, you would place this to the side. Thank you. Ah. Pink. This simply means that we send the pink light to the earth along with the gold. And there is pink light now. We will be with you all as you seek out the balance of gender, for there is much to balance. There is the male and female in every kingdom, and there is the balance in every kingdom, and the earth seeks to bring balance to its own gender issues.

Jacques Enters To Light The Gold Candle, And Speaks Briefly Of His Mission

Jacques: I am Jacques. Ah. (There are disgruntled baby sounds) The young entities on the plane must learn how to be with the older encasements. You notice I did not say the older energies ~ simply the older encasements. We are the healer. We heal Self, and are here in our mission to help the individual components of earth in its healing. We go to the green which is our color. Green? Green. So far, The Company is two for two. ☺ The green of healing. The light of green mingled with the light of gold will bring to earth the healing. Call upon us when you feel that the earth asks you to help in its healing, and visualize the green light of comfort. Farewell.

Susan Enters To Light The Gold Candle, And Speaks Briefly Of Her Mission

Susan: I am Susan. I am represented by blue. My purpose is to help in group balance, and you all know about that. The earth has group balance. Think of what it must be like to be host to all of the kingdoms and have to balance all of those groups. Earth has The Animal Kingdom, The Human Kingdom, The Mineral Kingdom, The Wind, The Air, The Fire, The Plants, all the kingdoms that exist are here on earth. Imagine if you had to balance all of those kingdoms. You have enough just to balance your own little groups. Do you not? As the earth calls upon you in its struggle in these final cleansing times, think of the blue light mingled with the gold, sending warmth and comfort to the earth as it balances all of the kingdoms. Blue. Envision the blue and gold in a circular motion moving around and around, encompassing all the kingdoms on earth and sending light of blue and gold into the center of the circle. Farewell.

Jenjura Enters To Light The Gold Candle, And Speaks Briefly Of His Mission

Jenjura: I am Jenjura. You might ask, what does the Librarian have to do in all of this? Earth calls upon us. It has questions also, just as you have questions for your path. Earth,

however, has now given permission to us to reveal parts of its path to those who would ask. From now until the final cleaning of earth, questions that you would ask about earth can be answered. It is our responsibility to give through that information in the most appropriate way. It will be done with the yellow. which is our color, and the gold, mingling together to give an illumination of knowledge regarding earth. Yellow. Envision the yellow and the gold as a ball of light. From that ball of light you would take out handfuls of illumination. Think of it in that way, handfuls of illumination. That will help you as the earth calls upon you for its balancing. Farewell.

Francis Enters To Light The Gold Candle, And Speaks Briefly Of His Mission

Francis: I am Francis. My specific mission is to help with The Animal Kingdom. The Animal Kingdom inhabits earth in very profound ways and will have a very significant impact during these final cleansing times. It is, therefore, our responsibility to help you as you would want to help The Animal Kingdom as earth cleans itself. Our color is orange. Orange. They had me wait until the very end so that I would not mess up, as they would say. They wanted to have a perfect record. They have. Envision the orange and the gold forming a pyramid. This is the shape to envision, the orange and the gold, as you call upon the energy and the light to give to The Animal Kingdom, as earth asks for your guidance and for your assistance with the animals. Farewell.

Farena Enters To Light The Gold Candle, And Speaks Briefly Of Her Mission

Farena: Hello o. They let me come last. I am always first, so we let Bathusela come first this time. I am here to give fluff and light and happiness and joyfulness and frivolity. I am purple. This session I am mostly gold, but most of the time, I am purple. We wanted it to be purple but Waith won out and said that it had to be gold. (Farena refers to the gold bow in the hair of Mushiba). However, at the very last minute, we got our purple in. (Farena refers to the purple ribbon hanging from the gold bow)

Purple and gold. They are the colors of the highest, and they represent the Lightheartedness and the beauty of Higher Self and Soul. We are here to help the earth and its Higher Self and its soul to be lighthearted, for it goes through so much trauma as it cleans itself. And thus, we will be here to help in the frivolity of keeping Earth Light. Give Light to Earth. It is the purple. Six for six. (Farena refers to lighting the final candle) Purple.

We give you the purple and the gold and the beauty of the fluff. Think of purple and gold as fluffy ~ fluffy, fluffy. And spread it all around, and make lightheart ~ lightheart. Regardless of the seriousness of the cleansing and the balancing, be lighthearted. Be happy. Be frivolous. Purple and gold. And surround it all with the beautiful White Light. The purple, the gold and the white. Farewell.

Waith: Now, my loved ones, what you see before you is the symbolism of the colors, and the Light that comes from the colors, and the gold that is the focal energy color for this coming time frame.

We would ask now, for the next part of our ceremony, that you each will come and take a candle. You will light it from the gold candle and then return to where you find yourself seated. So, you would begin now to come forward and take a candle and light it, my son. You would begin moving ~ we do not have all night here. ☺ More than one at a time can do this. (There is a long silence while this is being done) Look around you now and see the illumination. This represents the beautiful bright light that you each are. We give to you all, now, an energy that will connect you with your own light and give you the gold light. The Mineral Kingdoms that you have been entrusted with now receive also the energy.

And as you go through this earth plane year, light your candle and focus for a very short time on the gold light. And each time that you light this candle, you will have a renewal of the energy that we give to you now. It is an energy of strength and an energy of Self-confidence ~ Self confidence in knowing that you can help the earth. When earth calls upon you, respond. You know not when earth will call upon you. Feel the energy now. (There is a long silence) Now, very gently, blow out the light.

Now then, we would draw your attention to the energies that are here from The Mineral Kingdom. (Waith refers to Mineral Kingdom members on the same table as the candles) They represent that which you have in your gold container. There is the gold crystal. There are many rocks, and there is the rock with the gold that shows the combination and shows the beauty of The Mineral Kingdom. These candles will be lit for each Public Session for the coming year. We will give this energy once again at our next Public Session. You are the starter energies and will carry forth now into the next earth plane year the message of giving Light to Earth.

The basket that houses earth from many, many season changes wants to have more energy placed into it. When we have departed, we ask you, as your first request from earth, to go outside and find some component of earth and place that into the basket. It is the signal to earth that the light that we ask you to give to earth begins. We emphasize to you once again the importance of giving Light to Earth. We will have many techniques during this coming earth plane year in which you will find various ways of giving Light to Earth under various types of situations. That ends our ceremony. We would take any questions relating to what we have just given to you and what the others in The Company have given to you.

Does The Earth Have A Male And Female Energy That It Balances, Within Itself?

Yes, it does, my love. Within itself, just as each of you have male and female within Self to balance. You have a predominant energy that manifests itself in a particular

encasement. Earth, however, does not have that type of singling out of a gender. It works within its entire purpose of male/female. It is not quite the same as you would think of it in male/female for the human encasement, but it does have the balance components that come with male/female. That is all part of its cleansing now, to bring into greater harmony the male/female of earth, and therefore, the male/female of all the energies that visit the planet.

A Question Of Gender As Represented By Those In The Company

The Company of Susan and Farena. The names imply a female. Is that how we are to think of them?

Yes, they very specifically are represented in the genders that they present to you. There is purposely, however, three male and three female, thus, not giving special treatment to any one gender. However, understand that they are not necessarily dominant in that particular gender that they represent themselves to be. For purposes of the mission that they have chosen, they have taken on a particular gender.

The Twelve Pivotal Points On Earth Are Harmoniously Working In Conjunction With Each Other

Do you coordinate the effort for 1995 on earth with the other eleven pivotal points on earth, or is that primarily focused on Waith's activity in this pivotal area?

All of the pivotal areas are working in harmony and work in conjunction with each other. The theme, if you will, of giving Light to Earth is a common theme that the other pivotal areas also take on, some consciously and others not so consciously. Not all of the other eleven pivotal areas are as aware of their mission as this particular Energy Center is, so there is coordination. There has to be coordination.

Has A Vortex Recently Opened In This Terra Lux Area? Is It Opening?

Well, The Vortex for this area is expanding as it receives the information, as well as the energy. It will have a gradual expansion over the coming earth plane years prior to The Shifting. So there are, however, times in which there is a greater expansion than others. There is what you would call a continual stream of energy coming in. There is slowly, then, The Vortex opening itself. As many of you experience sudden bursts of high energy, there creates a larger expansion than others. And as we had indicated in our last session, there would be major occurrences coming about on earth, and you have experienced some of those in other parts of the earth from the time we last said this until just now. They also represent very large energy transferences to various vortexes, not just The Vortex that is in this geographic area.

Waith Channels The Energy Of Amelius Who Comes In And Briefly Speaks To The Group

We would give you an appreciation message. It comes from Amelius. Amelius is the energy who guides us and gives us our instructions. Amelius is able to channel through me. Thus, we will have that occurrence now, where Amelius will speak through me, speaking through Mushiba. Understand the difference, my loves. Amelius is not speaking through Mushiba. His energy would not be adaptable to Mushiba's energy. So, there are two levels of energy transference occurring here. Amelius will speak through me now.

Amelius: We bring you the very Highest Light. We speak directly to you. You have all chosen to be here at this time of the earth's changes. Take that responsibility seriously. At the same time, bring Lightheartedness to that responsibility. Our message is Lighthearted. We infuse that through Waith and through Mushiba, and we infuse that message to all of you. Be Light of Heart And Soul and serious in your responsibilities. We send love to all of you. Receive our energy. It is a special gift to all of you. Farewell.

Waith: We were most pleased that Amelius would use this occasion of our celebration to speak and give you energy, and to reinforce the importance of the cleansing and the duality of seriousness and Lightheartedness. It is the balance. Some of you are very lighthearted and some of you are very serious.

Many of you are faced now with the balance of being more serious or of being more lighthearted. Look to each other for those balancings. Help each other. Recognize what another is attempting to balance, being serious or being lighthearted. Do not judge them, just as you would not be judged. That comes from the Bible, doesn't it? ☺ That was not an original saying, folks. But you see then, the message is timeless. It has been said over and over and over again by messenger after messenger. We are not the first. We are not the last. We reinforce the message. Look to others for help in your own balancing, just as you would help others who look to you in their balancing. Take responsibility for your own behavior and do not worry about another's behavior ~ that is not your concern ~ but only when you are called upon by another. In this coming year the earth will call upon you. Respond as best as you can. At a very minimum, my loves, give Light to Earth.

On that note, we will depart. As we are departing, you would perhaps move about outside and gather something from earth for the basket. We will be with you as you socialize and enjoy the food that many of you have provided. We thank you again for sharing in our celebration and accepting our gift.

Can you stop the rain, Waith, before we go out?

You are protected. There are far greater forces at work with earth now than the angels who guard the rain clouds can work with. Focus yourselves now on the Light within and bring the gold light into Self, and fill Self with the gold light and the beauty of love of Self. Send out that beautiful gold light of Self to all in the gathering. Feel the unity of love and Light. We send to you all now the very Highest of the White Light from the very Highest of the Kingdom of Amelius. Farewell.
