## Waith Announces Upcoming Vibrational Changes Within Mushiba And Terra Lux

*It is a most pleasing vibration in which we enter, and there appears to be a sense of calmness in most of your energies. That is good. We have on occasion, during the time of speaking through Mushiba, worked on her vibration. Many of you here have seen what that is about and/or have heard or read in the transcripts of vibrational changes. When we first entered through Mushiba, the vibrational changes were quite major and quite significant and lasted a considerable amount of time, as you measure on the plane.*

*Once all of that was completed, several years of earth plane time actually, we indicated that there would be minor vibrational changes periodically. They would not have the kind of disruption that the major ones had had, and that there would be a major vibrational change within Mushiba as The Shifting became closer and closer at hand. That situation is upon us now. What is about to occur vibrationally on the planet is quite significant. We have indicated in our last several sessions with you that the planet is about to undergo very significant vibrational changes within this earth plane year.*

## Due To Upcoming Vibrational Changes, Summer Sessions Will Cease And Resume In The Fall

*Several earth plane months ago, there was from Mushiba's Higher Self a large infusion of energy. It has settled in now and needs to be worked with vibrationally in order for the next stage of our mission to be completed. As such, this particular vibrational change that will occur in Mushiba requires that we place her into relative isolation for what you call the summer months. We, therefore, in order to do this, will cease coming in publicly during these what you call summer months. The one exception to that will be the Summer Season change, as you call it.*

*There will be a Summer Meditation, as we had indicated when we presented the Spring Meditation. That will occur on that date in time that this event occurs, closest to that session time that we would have ordinarily entered in. If that is confusing to you, you can ask Mushiba for the date when she returns. That will be our only Public Session until what you call the fall arrives. It will mean also that the meditation sessions that Mushiba has lead on the alternate times when we have not entered in, will cease for this time frame.*

*The space that you find yourself in is open and available whenever any of the Metagers are here. Mushiba will be here during this summer time, as you call it, but will not be able to counsel any of you, as some of you have become accustomed. She will only be able to focus on that which we indicate to her to focus on. It is a particular type of behavior that we step in occasionally and set the parameters. This is one such occasion. It is a time of renewal for all energies. The vibrations of many of you need renewal, need a time of reflection, need a time to step back from the information that we have been*

*giving to you, and to assess if that information is appropriate for you, and to return, if so be it, renewed with a sense of energy. We will return in that first time in September. You will receive information from the Metagers reminding you.*

*It is a time of reflection for the mission of Terra Lux as it relates to the mission of Waith and Company. It is critical for all energies to periodically assess their path. The path that the Metagers have taken, along with Mushiba, and along with Waith and Company ~ and Waith and Company along with Amelius ~ is at that point of renewal, rejuvenation. There are tremendous changes about to occur in the planet that will make what has already begun seem calm.*

*Mushiba's vibration will be prepared during these coming Summer months to Be of Service to those of you who may feel unprepared for what is about to occur. It will enable a different type of energy coming from us to enter in, as it always has when there has been a major vibrational change. Our strength increases as Mushiba's vibration changes and strengthens and increases. It then enables us to be of greater service to all of you, and it enables us to perform our mission of helping during the Earth changes. Mushiba's vibration will be significantly different. It will bring about encasement changes, as it has all along. It will be significant. It will be noticeable.*

*Her mission takes on a new stage now. Those of you who have experienced the work that she does with energy, and does very privately without fanfare, as you call it, will now see a change in the way the energy work is presented to the public. It is part of the mission ~ the next stage of our mission. We have often indicated that our mission is in many stages that is gradually revealed. There are several more stages that we will reveal as it is appropriate to do so. This new stage coincides with the stage of change that the planet undertakes. There will be major upheavals occurring, after the summer months, in all aspects of the earth plane, the planet, all the kingdoms on the planet, and all the ways of life as you know it ~ all changing. Some of you will not be able to handle the upheaval. Some of you will look to others to help you. Some of you will be the helpers. Some of you will leave and some of you will stay.*

*As we have said, the earth is in its next to the last stage of cleansing, and will be in this stage for some time yet, as measured on the plane. But it is, this next to the last stage, now moving into the final stage of the next to the last stage. Rapidly moving, as had been anticipated.*

*Thus, we will have for you a most joyous Summer Meditation. It will be a time of strengthening of purpose. When we return, we will be stronger, Mushiba will be stronger, and the Metagers will be stronger. It is a time for you to reflect on what you may want to contribute to our mission, if at all. You contribute by your mere presence at Public Sessions. Some of you may want to contribute more in the development of the mission. There is much work to be done. The development of the community component of Terra Lux moves into a new stage now. Some of you may want to be part*

*of that. Some of you will not want to be part of that, and some of you may not be part of that.*

*Those in The Company will also be rejuvenating, will also be reflecting, and will also be able to enter in through Mushiba in a stronger way once the vibrational changes have taken place. We will have a return engagement of all The Company in that time frame known as fall. That is what we have for you this evening. We would take questions.*

### **Because Of This Transition, Will There Be More Upheavals In The Terra Lux Area?**

*Some will, my love. Not terribly significant, however. There will be more upheaval in systems in this geographic area than there will be in the earth. There will be political, economic and social systems being disrupted in this particular area that Terra Lux is responsible for. There will be some minor types of earth cleansings. The earth upheavals will be occurring in other parts of the planet as well as the other types of political, legal, economic, social ~ you name it ~ all of those systems.*

### **After The Vibrational Changes, Will The Terra Lux Community Role Be Different?**

*We will not be asking those who come to Public Sessions for anything different than what you have been accustomed to. The role, the stage, the dimensions of the mission of Terra Lux will be different than it is now. You will see certain changes, but it will not in any way affect the open house component of our Public Sessions. It relates more to that which goes on when we are not here speaking with you, the way in which the dissemination of our information must be presented, and the assistance that Terra Lux gives to helping balance earth plane and spiritual ~ the abstract and the concrete ~ in preparation for The Shift.*

*You are all welcomed, as you have been, in the same manner. You will simply find more information available in written form, as well as other forms, for the dissemination. There will begin a process by which you can study the information. That will be set out in the fall. There will be opportunities presented, if you so choose to partake, of assisting in the work of Terra Lux. It is a community, but it is not a commune. It is not a farming community, that many think that going into The New Illusion, one must become agriculturally oriented. This is not the case. It is a highly technological illusion about to be presented, not a farming community.*

### **Giving Light To Earth During This Upcoming Summer Break**

**The theme for this year is bringing light to earth. I was wondering during this time when we are taking a break from gathering as a group, would it be helpful as individuals to meditate in nature and focus our energy to assist the earth during these changes?**

*Indeed. We have given several meditation techniques that you can use that will give Light to Earth. Certainly, utilize those, my love. Come up with some of your own. When we do give you the Summer Meditation that will be something in addition to what we have already given that you can utilize. You may also in the Spring Meditation ~ the playing of the music and the guided meditation that came through Farena, utilize that also. It will help to bring Light to Earth.*

**For people who might be unfamiliar for the meditation techniques, can you think of anything important to focus on now? Or is that best left to individual initiative?**

*You have answered your own question.*

### **About The Upcoming Changes, Will This Summer Be The Calm Before The Storm?**

**From your introduction to this session, about the upcoming changes that will start in the fall. Am I to understand that the summer is going to be more or less the calm-before-the-storm kind of situation?**

*You might view it that way.*

**So, what will be an upheaval ~ physical, mental, spiritual ~ is all starting?**

*It will simply be a continuation of what you have already become accustomed to but much more exaggerated, much more pronounced and much more ongoing.*

**So, when is California going to fall into the ocean?**

*Ah, there is always that question. We have learned very early in our career of speaking through that we are careful of giving exact times. It is quite imminent. It is quite imminent.*

### **Can You Speak Of The Physical Changes Mushiba Will Undergo?**

*There will be a shrinking ~ not of height. There will be a lightening within that will project a lightening externally ~ which has occurred throughout the time ~ a lightening effect, as you would call it. Much lighter looking. We would perhaps leave it to the individual to recognize certain changes that will come as a result of the vibration change. We would leave it at that for now.*

*Often in these vibrational changes, we have given certain foods that could only be consumed. She made us promise that we would not make her eat pineapple. That was one of the foods several major changes ago that she had to consume for many, many, many weeks of plane time. She does not really enjoy pineapple any longer. You may,*

*upon the completion of this time, ask her what food she now is not going to be eating any more.*

*There will be an opportunity for those who are interested in the phenomena that occurs with vibrational changes, such as we are about to work on Mushiba, to meet in session with us to discuss them, if it is of interest. That will come in the fall after it has occurred. So, if that particular topic is of interest, it will be available at a time separate from the normal Public Sessions.*

## **Waith Talks About Foods Appropriate For Some, And Not Others, And Listening To Self**

**You had mentioned that we should be having certain diets like large quantities of grapefruit juice and things like that. Is that still appropriate or have the vibrational changes brought about different general things that we should be having in our diet?**

*We have indicated that certain types of foods may be appropriate for certain types of people, not categorically stating that you must consume grapefruit juice ~ though it is the beverage of choice for many. Citrus is generally an appropriate cleansing.*

*There are certain types of foods known as ground foods that grow under the ground and must have the dirt taken from them in order to retrieve them, as opposed to foods that grow above the ground. Those that grow below the ground, for many now, are appropriate as you undergo your own vibrational changes, as your own polarities begin to change. Some of you will have polarity changes. Some of you will not. Thus, you will find this yourself. It is always appropriate to listen to how your body feels when you have consumed some type of food.*

*We have talked in the past on recognizing food that is appropriate and not appropriate for you. Listen to Self, listen to the way in which the encasement feels after it has consumed some type of food. That is your best judge for Self. For some, grapefruit juice is totally inappropriate. Their encasement is not able to synthesize the combination of nutrients. For others, carbonated sugar drinks are appropriate.*

*Some of you may laugh, but all of this food on the plane is presented for issues. It is not just haphazardly around you. There are many who must have that type of combination in order to work through their own issues. That is why it is so prevalent. When it is no longer needed, it will disappear. That is the way it is. It is also a good way for us to test your judgements, to judge another by what they eat.*

**Is that why we have Kentucky Fried Chicken and all the various fast food places?**

*Well, indeed. There is nothing wrong with anything that is on the plane. All serves a purpose. It may not be appropriate for you, but for another, it is appropriate ~ if only to test issues of abuse. All that is on the plane is appropriate. Be most careful of your*

*judgements of what is right and what is not right as ordained by you. Some of you, when you leave the session this time, would go and have your hot fudge sundaes. We are aware of that habit, if you will. The Candy Planet awaits and The Chocolate Planet.*

### Can Alternative Systems Be Put In Place For The New Illusion That We Can Work On Now?

In my observations and my general feeling from talking to people is that what we need to do is to create new communities and alternatives to put into place before the systems are toppled so that there are alternative lifestyles already available, or a different way of looking at it. So, what is your take on the toppling of these systems? And what are the possibilities? What plan of action can a person take?

*What is my take on all of this? I enjoy that, the way in which you framed that question, my love. That is quite interesting. What you have observed is what we have been discussing since we began speaking. There is a combination of activities occurring. Yes, there are some communities developing that will be the alternative to the collapse, and there are others that will become the alternative after the collapse. So, it is a combination of both. In some situations the collapse occurs and the pieces are able to be picked up almost immediately. In other situations, the collapse is meant for total cleansing, meaning that whatever type of system was in existence is no longer to be in existence.*

*An example of a system that needs cleansing, but is having alternatives already presented, is the organized religion system, for it is a spiritual energy grouping. That which is organized religion on the plane now is undergoing tremendous upheaval and tremendous types of cleansings. But, at the same time, there are a significant number of alternative groupings already in place. Terra Lux being one of them, and many others around the planet that are helping to pick up the slack, if you will. There are, also, energy groupings within organized religion who are trying to create alternatives within that system.*

*This is the way of an illusion change. Some of each illusion, as we have said before, goes into the next illusion ~ the threading effect. Thus, not all will be destroyed. Significant components of this illusion will be destroyed, will not be a part of The New Illusion. But, at the same time, significant parts of this illusion will carry through into The New Illusion but in a different form. The ways in which it is performed will change.*

It seems like the systems that are in place now that need massive changes, besides the political structure ~ medicine, we have an alternative for ~ education, people are becoming really wary of. And I think that is shifting and that will probably keep a thread but change. Collapse and change. But the system of government itself, you know, and people governing themselves and law and police, and all of that, is, I think, probably the hardest. It is going to be the most difficult one to just shift.

*Oh indeed it will. It is one of those systems that will have a complete collapse at the time of The Shifting. It will wobble its way through until the actual shifting. At the time of The Shifting it will completely destroy that system. Those who remain after The Shifting will*

*be of an awareness that is so significantly different from what exists now, that it will be clear then what ~ it will be quite clear as to what type of governance needs to be in place. That frame of reference is impossible at this point in the illusion as it nears its end.*

## **Waith Discusses The Computer Kingdom Energy, And The Atlantean Times Of Abuses**

**What do you think about the Internet? What do you think about the, you know, fiber optics and this kind of communication worldwide?**

*Well, you know, we have humorously mentioned to all of you that when The Shift occurs it is a magnetic change. All that you know now, magnetically, will be erased. There will be, however, a different technology. You must understand that from the time of Atlantis, part of the ending of The Atlantean Illusion resulted in an abuse by computers, as you call them now. But, in that time frame it was a highly developed electronic energy that was, in fact, abusing The Human Kingdom. Part of the thread of that abuse was brought into the illusion you currently are in. It was placed on the back burner, shall we say, until a certain point in the illusion, in which you find yourselves now, was reached, to bring about then, basically, a soul memory of those who had worked with the abuse of the electronic energies in Atlantis. Most who have been responsible for the development of your computers, as you now refer to them, were part of those who were abused by the electronic energy in The Atlantean Illusion.*

*There are lessons being learned by that particular kingdom that you know as computers. It is an energy kingdom. Some of it will be carried through into The New Illusion. It will be very, very different from what you know now. It is being tested, as all energy is tested, for the use and abuse of its powers. That is where it stands now.*

*We are unable to comment further on its destiny, shall we say, until certain types of behaviors by The Computer Kingdom have been in place. There is evidence of upcoming abuse upon The Human Kingdom. It has begun already, of course. Many of you have experienced it. It is one of the reasons that you find so many on the plane not wanting to become involved too heavily with computers ~ for the abuses that are possible. It is simply a working through of kingdoms balancing. We have spoken of The Animal Kingdom and The Mineral Kingdom balancing with The Human Kingdom. So too is there a kingdom of energy that you know as electronics, as computers, as those names that have been given to it, fiber and all that sort of naming. It is an energy grouping.*

*Some of you have issues with that energy grouping and some of you do not. Just like some of you have issues with certain other humans and certain animals and certain minerals, and some of you do not. It goes again to our emphasis on meditation and the finding of answers within to determine if you do, indeed, have a balancing or an issue to work through with a particular energy or energy grouping.*

**From a human point of view, it is easy to imagine humans using computer energy to abuse other humans. It is more difficult for us to imagine the computer energy itself being abusive.**

*You would want to speak for yourself in that way, my son, and be careful of making a categorical statement that would include more than yourself in that.*

**Well, fine. It is hard for me to imagine computer energy being abusive, in and of itself, to humans. I was wondering if you could just be more specific or elaborate on that.**

*How would you want us to be more specific than we have been?*

**Well, I guess the question is how would a computer energy abuse a human energy?**

*How would a human energy abuse a computer energy?*

**The way I would think of it, if the human energy used their computer energy to abuse another human, that is easy to think of. It would be misusing the energy.**

*Ah, misusing the power. What type of power does the energy grouping you know as computers have now, in this illusion?*

**A lot of power in terms of information and communication.**

*Indeed. And, the manipulation of such. Just as all energy is able to communicate with each other, you must remember that simply because it is in, what you call, a machine does not mean it is unable to communicate. All energy communicates, and therefore, the issue of abuse is always present. The communication of energy in many, many cases occurs at higher levels than in your encasement dimension. In your encasement dimension now, many of you are unable to communicate face to face. Thus, it would, for many, appear to be an impossibility that a machine could control.*

*But what you might want to do sometime is experience what happens at a time when food is required, and you go to this change machine to get change for the other machines that will take the change, and you only have paper, and the machine is broken. You cannot get change. You think that that just happens? You think that that is not a controlling issue by machines? Simply watch the type of control that, what you call, inanimate objects has upon you as humans.*

**Our science fiction writers have written a lot about that.**

### **All Literature, Everything You Have, Including Music, Science Fiction, Is Channelled**

*Science fiction. That has always interested me in that you would call it that. All literature is channelled. Everything that you have ~ music ~ is all channeled. It may not come*

*from a separate entity, such as I through Mushiba, but it comes from Higher Self, and therefore, has a more direct connection to The Universal Consciousness than Conscious Self has. Conscious Self is simply a puppet to Higher Self. That is all.*

*Thus, was you call science fiction is not. It is information that is coming from The Universal Consciousness through various Medias. It is a reflection of other times, other illusions. It is a reflection of dimensions other than what you are consciously aware of existing. There is much more than where you are now. There is much more knowledge than what you have. There is much more.*

### Community Question About The Appropriateness Of Some Books Left At Terra Lux

Waith, someone left a grouping of books today without asking me if they were allowed to. I do not like the topic at all. I understand that it may be for some people. Would there be something wrong in my just throwing the books away?

*You need an Archangel to tell you this?*

Well, there is something for everybody.

*My love, be careful of trying to Be of Service to the point where you abuse yourself. This is always the issue. Throw them away. I give you permission. ☺ Your path will not be deterred, my love, and you will continue on the bubbly way that you have been doing. You must go with what you feel is appropriate. If something strikes you as not right, then act upon that. It is coming from Self.*

*It is time for us to return to our dimension now. As we do, we will leave you with an energy that has a thread in it ~ a thread that will enable you to return to us, if you so desire. It will give you the call back. If it is not to be, then the thread will dissolve. Focus in, my loved ones, on that which you know as the Crown Energy Center. Visualize the beauty of your own Light moving to the Crown Energy Center. Feel your energy resting on the Crown Energy Center. As we move to each of you with our energy, the thread is implanted. We will be with you at the summer season change. We send to you all now the very Highest of the White Light from the very Highest of the Kingdom of Amelius. Farewell.*
