Topic Of Session ~ Vibrational Changes

We have gathered with you in this session to discuss the topic of vibrational changes. There has been much said of vibrational changes on the earth plane in recent times. Some of it correctly stated, but most of it not. Most information that has become known is misleading at best. There is the idea that vibrational change is something very concrete and can be seen and therefore valid. Vibrational change relates to abstractness. It relates to energy that cannot be seen and yet brings in a very powerful change in an entity, whatever that encasement might be, whether it is human, animal, mineral, plant, air, wind, fire, any kingdom that houses energy.

Vibrational change is an activity that occurs on a regular basis with all energies. It is not something that is reserved for the enlightened few. That is also another misperception, and also false information perpetrated by the spiritual elite who think that only those who have reached a level of advancement and spiritual enlightenment will be able to go through vibrational changes. This is incorrect, and you must be most careful of those who would perpetrate such information. There is no such thing as the special entities ~ the elite. There is no such thing as elite entities. There is only entities ~ some with more advanced awarenesses ~ but, certainly, not giving them a status of elite.

Vibrational changes occur with every energy form. It is necessary for growth. It is necessary to sustain the energy. Without vibrational changes there would be nothing. Energy would cease. The type of vibrational change differs from entity to entity. We are here to give you a certain description of type of vibrational change.

There Is A Vibrational Change When Lessons Are Learned

The first type is the common vibrational change. As each entity learns a lesson, to whatever degree it needed to be learned, to whatever degree it was determined to be learned ~ that percentage that we have spoken of ~ when those lessons are learned, there is a change in the vibration. You have all experienced it. You may not have been aware of it. But as you learn your lessons, you change. Lesson learning is meant to change you. That is the whole point.

There Is Vibrational Change When An Energy Brings In Higher Levels Of Self

Another type of vibrational change relates to when an energy brings in higher levels of Self ~ Higher Self walk-ins as you might call it. This takes on various dimensions. Vibrational changes with Higher Self walk-ins can be very dramatic, for there can be a sudden infusion of energy into the vibration that comes from the higher sources and creates a rather dramatic change in an energy.

As humans, you have experienced this phenomenon. You have seen people who seem to have changed overnight as a result of an incident. They suddenly feel stronger. They express their views more strongly. They have a greater strength. It is the result of a Higher Self infusion, and it does indeed happen dramatically. It may be what you call this overnight sensation. It may be the result of walking away from a very dramatic occurrence. It may be simply going to sleep and waking up, having infused Higher Self.

The Higher Self is capable of infusing multidimensional levels of its own awareness. For most entities, they only begin to scratch the surface in any one lifetime of bringing in levels of Higher Self. This is one type of vibrational change. It results in an entity being able to respond in a stronger way to its path. It is what you might call the cavalry coming to the rescue ~ bringing in Higher Self.

An energy can have Higher Self infusions regularly during a lifetime. Once an infusion has settled in, and the path is continued in a stronger way, more is expected of the energy from The Universe, and the path takes on a greater dimension. Thus, the energy may need to bring in more Higher Self. It is a feeding cycle. The more that Higher Self infuses, the greater are the demands by The Universe placed upon the energy and the greater the demands by The Universe, the greater the need for Higher Self infusion. It becomes a cycle. Higher Self infusions occur with just about any energy ~ in any encasement. Some occur more frequently than others, but as you gain in your awarenesses and you move out of the type of energy vibrational adjustment that we spoke of earlier, you move into this area of Higher Self infusions.

Another Type Of Vibrational Adjustment Is Concerning Interdimensional Communication

Another type of vibrational adjustment is concerning interdimensional communication. As you are able to communicate through your Higher Self to the Universal Forces, an attunement occurs ~ a fine tuning of your own vibrational field that allows you to communicate with sources higher than your consciousness, whether it is your Higher Self, your Soul, your energy grouping, or the greater Universal Consciousness. That is a vibrational adjustment.

Each energy is in a continuous process of fine tuning that particular type of energy attunement. Not all energies currently encased are able to have this type of vibrational attunement. The reason for this amounts to the type of path they have taken on, their own levels of advancement, energy wise, and their own desires to, or not to, communicate with sources higher than the consciousness. There are others who do communicate interdimensionally, but are unaware of it at the conscious. The purpose of meditation is to help in the polishing of this particular ability, to bring about vibrational adjustments, via interdimensional communication. Meditation, then, serves as a tool to connect conscious with unconscious and to bring about vibrational adjustments.

Another Type Of Vibrational Adjustment Relates To Interkingdom Communication

Another type of vibrational adjustment relates to Interkingdom Communication. It brings us now to a discussion of vibrational changes as they relate to the changes of the planet, as they relate to the coming of The New Illusion and as they relate to your adaptations to a changing illusion. Vibrational adjustments reach an exaggerated form at the time of an illusion change. Most of those vibrational adjustments are unseen. However, in their unseen quality, they bring about dramatic physical, concrete changes. You cannot see a vibrational adjustment. You see only the results of it.

The earth, in its cleansing now, reaches out to those who share its vibrational field. The earth attempts to communicate. With many of you, the earth has been successful. With many of you, it has not. It is not a negative or a positive statement, whether or not you have communicated with the earth. It simply is one way or the other. You do not have to communicate with the earth. Not all currently sharing the earth's vibration are meant to communicate with the earth. The majority currently on the plane will not be sharing the earth's vibration in The New Illusion. We are on the record with that information.

The Vibrational Adjustments Currently Occurring Relate To A Very Specific Type Of Vibrational Change ~ That Is A Change Of Venue

The vibrational adjustments currently occurring relate to a very specific type of vibrational change ~ that is a change of venue, as you would easily understand it. Venue on the earth plane means a placement. The earth will be changing its placement when the axis finally shakes the planet. In the meantime, there are changes of venue occurring ~ some minor, some major. Some on the plane expect dramatic changes. "When is California going to drop off the earth?" That is inconsequential within a discussion of vibrational adjustments and vibrational changes. What is consequential is a discussion of your own vibrational changes, for you do have them, each who hear these words and who read these words.

It is a time of changing of illusions. It is a time of acceleration for growth. Many of you will stay into The New Illusion. Most will not. But, not staying into The New Illusion is not meant to be thought of as negative, and therefore, not to work on vibrational changes. Quite the opposite. Those who stay into The New Illusion have done so because of hard work through millennia. Many who stay in this New Illusion coming will find it to be their first transitional New Illusion presence.

Many have not experienced going from one illusion to the next. It takes many illusion changes for an energy to build their own energy awareness and strength to participate in such an energy change in such a vibrational adjustment. But you will not reach that point in future lifetimes unless you work right up until the end to change your vibration. When you leave the current life, you will take with you, then, a level of advancement of energy and a vibrational attunement that will prepare you ever so slightly more for the next illusion change.

In the next illusion change you still may not be ready to go through that type of venue adjustment. It may take a number of illusion changes before you are ready, for it takes a very strong vibrational field to withstand the impact of a New Illusion. The changes that occur, energy wise, at that moment of switching are dramatic. We do not discuss that moment of switching, for those who will not be in The New Illusion would never understand what we say, and those who will be in The New Illusion do not need to hear it. Mushiba recently underwent vibrational adjustments ~ and those who surround her are still here to talk of it. Vibrational adjustments can be rather strenuous on an energy when done over a period of time.

Another Type Of Vibrational Adjustment Relates To Those Who Communicate Interdimensionally By Allowing An Energy To Speak Through Them

Another type of vibrational adjustment relates to those who communicate interdimensionally by allowing an energy to speak through them. There are many on the plane now who do this. The way in which we speak through Mushiba requires vibrational adjustments. Those vibrational adjustments vary from entity to entity and are determined by the type of energy who wishes to communicate through.

We indicated before our summer retreat that there would be a tightening of the energy field, and we jokingly made reference that many of you would also be experiencing this tightening and would perhaps, then, not worry about dieting. It was a joke. Many took it literally in thinking that there would be a shrinkage of the body, the encasement. That is not what was said. What occurs in this particular situation with Mushiba was a tightening within the vibrational field that gave a much greater foundation of energy for us to enter through, and also strengthened her own abilities in working with energy. It gave a greater strength to the overall vibration. It enables us to come and go much more quickly and much more easily. When you see that, it is a result of a vibrational adjustment. We come and go much more quickly, with much less effort.

Each vibrational adjustment that Mushiba has gone through, in our time speaking, has been necessary so as to strengthen our own mission. This is true of any on the plane who communicate in the way that we do. When there is channelling, as it is so often referred to ~ we prefer interdimensional communication to the word channelling ~ there is need for vibrational adjustments, even if it is Higher Self that is speaking through, but more importantly, when it comes from an outside energy source.

If one were to claim that they do not have these kinds of adjustments, that it is all very easy for them, then you must question whether they are actually bringing through a legitimate source. It may simply be their Higher Self. Any energy who allows an outside source to communicate through by use of their encasement undergoes periodic vibrational adjustments. It is critical. If it does not occur, there is something negligent in the process ~ in those who are working with this ~ whether it is the energy on the plane or whether it is the outside source.

Vibrational adjustments are critical, periodically, for a realigning of the energy field. There is tremendous stress placed on an energy field, such as Mushiba's, with the comings and goings of an outside energy. It does not appear to the outside world that there is any stress occurring, but there is. Mushiba hides it well, for one thing. It is very natural for her. Others do not hide it as well. The more developed the process becomes, the easier it is to appear to not have stress within the vibration. There is stress. At the same time, there is calmness. But periodically, we have to shake up the vibration in order to soothe it. This is what occurred during this summer retreat. It was a time of adjustment of Mushiba's physical, what you call, thermostat. It is continuing to be adjusted. It is not completed yet.

What we have described to you with Mushiba is partially related to the Earth changes and the coming vibrational shaking. The earth is undergoing tremendous stress, vibrationally. It is being cleaned out in parts of its field, and in other parts of its field, it awaits cleansing. It is not all happening simultaneously. As one component is partially cleaned, it is soothed and then it awaits its next cleansing.

It is up to higher sources working with the vibration of the planet to assist in that vibrational adjustment. It is also up to many on the plane to assist in that vibrational adjustment. The result of vibrational adjustment will show in ways that you would not expect. To those who would not have the awareness to recognize it, no amount of description from us would enlighten you. To those who would recognize it, it is not needed to be discussed.

That awareness comes from observation. If one would complain, "Well, Waith, if you do not explain it to us, how will we learn?" You will learn by knowing it exists and by seeking it out and observing. You will not learn by us describing it, for you would be incapable of understanding the description. This is the way of The Universe. This is how you learn. After you have learned it, you understand it.

We give you certain descriptives that are appropriate for your search for the incident that will be observable by you, and therefore able to be learned by you. This relates to vibrational adjustments. Many were waiting to see Mushiba at the end of the summer retreat. What would she look like? She has taken the wart off the end of her nose. She does not fly on her broomstick any longer. There is no visible change. There is a behavioral change. There is an attitude change. There has been an infusion of Higher Self.

But more importantly, there has been an adjustment that enables our mission to be stronger, and therefore enables her mission and the mission of Terra Lux, and therefore, the mission of all who would come within our vibrational field to be stronger, to have greater capability in growth. Vibrational adjustments, then, simply mean the recognition of change and the recognition of growth, attainable by all ~ necessary, in fact, for all. Nothing elite about it. We would take questions relating to this topic.

The Subject Of Cross Pollination, As In The Animal/Human From The Atlantean Time

When you have a mixture of the kingdoms, as has happened in the past with animal and human kingdoms, obviously, you have some vibrational changes that go on at that time. Could you discuss that a little bit and perhaps discuss what happens when that energy passes over, in evaluating the life? How does it perceive the animal/human combination? Is there a difference in what happens when it passes over to the other side?

The question that you raise has complications in it, for when there is a combination of two kingdoms forming one energy field, such as animal and human, as was used during the Atlantean time, there is a combination factor that comes from the energy grouping that surrounds an energy. The combinations come from an energy's energy grouping. So, when there is animal/human combination, for example, it comes from the same energy grouping, so it is in itself ~ itself.

The issues that relate to evaluation of it as an energy and its potential growth, therefore, become situational, but also very complex. For now, there is the dealing with multiple energies from an energy grouping, and not just one energy trying to evaluate its own growth. Now it becomes more sophisticated. Generally, when that situation has occurred ~ cross-kingdom pollination, as it is called, there are major lessons of abuse, that come out of the Energy Circle, to be learned. By taking on that type of role indicates a very strong desire to balance that abuse.

There are other ways to balance abuse of other kingdoms, other than cross pollinating. To cross pollinate means that there is dedication and commitment, in a short-term scenario, to balancing. It therefore brings about a greater degree of growth if the path in that life was successful. There is more that can be discussed on this topic, of course, which we will be addressing in some future time, not in this coming year of course, for it is Meditation Year ~ but the discussion of what you would call Interspecies Alignment will be discussed. It is an area that you will see some evidence of its usage right before The Shifting actually occurs.

Information Coming From Different Sources

There are a lot of sources talking about the vibrational shifts. Are those types of vibrational changes the same ones you are talking about now in this discussion?

In essence, yes. You need to look at each source, however, and not make a generalized evaluation. Some of the sources are very legitimate and very, very helpful. Others need to be questioned. Again, whether or not you question a source is part of your own seeking of knowledge and learning of lessons. You may seek out a source and find no questioning needed for that source. Another may seek out that same source and have many, many questions of it. It, therefore, does not mean one way or the other that the source needs to be validated. It simply means that for the person who is seeking the information it may need to be validated.

There are some sources that currently are on the plane that have widespread perceptions of acceptance, and other sources that have widespread non-acceptance. Most of the time, however, it is an individual matter. You determine whether a source needs to be validated or not.

A Question Of Extraterrestrials

Many of the sources claim to be entities calling themselves extraterrestrials, which is a phenomenon which has really proliferated in the last couple of years, and I would assume the same thing applies to them ~ some are valid and some may be leading us astray.

Indeed. Indeed. We are always amused at the terminology that comes into play on the earth plane ~ extraterrestrials ~ aliens. You know, any extraterrestrials, as you know it, is simply interdimensional. Many of them are actually part of the earth plane vibration. They are just in another dimension of the earth plane vibration.

Remember that the planets that you know of that surround the earth, and we emphasize that phrase THAT YOU KNOW OF, house energies with encasements, and they are part of the cleansing for the planet. We have spoken of this. It is on the record. Oftentimes, they will simply move interdimensionally. Other times, they will have physical ways of moving that you are not able to see, or they actually have what you call ~ we do not really want to use the word spacecraft ~ however, they have vehicles in which they move from planet to planet that, technologically, are more advanced than what you have on the planet earth.

Remember that the planet earth is the focal vibrational point of the earth plane. Other planets are part of the earth plane. They have life in different ways than on the planet earth. There are also energies coming from planets from another training ground, not the earth plane as a training ground, but other training grounds. We have not discussed other training grounds in any detail for very specific reasons. It is not time to talk of them. But many of these sources coming through are coming from other training grounds. They have information. It is up to you to determine if it is valid or not. It is also a part of every entity's training, learning, teaching, to determine if the way in which they send that information is abusive or not.

Many who channel, as it is called, are in abusive relationships. It is no different than being on the physical plane and being in a relationship in which one abuses the other, or both abuse each other. One is taking advantage of the other. Usually ~ not always, but usually ~ the abuse comes from the energy who is attempting to speak through, and therefore, does not take the precautions necessary, indeed mandatory, by Universal Law, to protect the energy field of the host vibration.

In situations like that, it is a short-lived relationship, for the energy of the host cannot sustain over the long term the abuse of an outside energy coming and going, coming and going without that type of soothing. However, the entity who is speaking through simply finds another host, does not care about the host in the long term. It is that type of situation that you would evaluate. Their information may be helpful for you ~ may indeed be useful for your own learning. Whether or not they are abusing the host vibration may not factor into your validation of them as a source. It is for you to determine if the information is appropriate to you and then to determine the way in which that information has been given to you, if that is appropriate for you to take into your own consciousness to assimilate.

Different Terminology Used By Other Sources Of Information Coming Through

Most of them say the earth is going into the Fourth Dimension or some other dimension is how they describe the vibrational changes. Is that equivalent to an illusion shift?

Again, we will not give recognition to terminology used to exclude. The earth is undergoing vibrational changes. Regardless of what it wants to be called by any other source, it is a vibrational adjustment that is occurring. Now, you may take it into any kind of vocabulary that you would want to. We will not give empowerment to the use of those kinds of terms, for they would, then, exclude our own descriptions of concept. That particular vocabulary usage is one of many that describes the concept that we have given.

You must be the one, my son, who determines whether the vocabulary that is being used fits with your own understandings. If it does, then by all means use it. We avoid the use of specific vocabulary because our audience is a much wider one than the majority of those who speak through, and therefore, we must keep our language in a simplistic way so as to be understood by many ~ many more than the audiences that the others would address.

Is There A Supreme Being Who Is Monitoring These Nonrelated Entities?

If it is true that there is no elite entity making environmental changes on the earth, then is there a supreme being who is monitoring these nonrelated entities, putting too much energy infusion too soon causing earthquakes, flooding, and earth shifts more than the earth can handle and it might cause an explosion? For example, if you pump too much air into a tire, it explodes. Someone has to monitor how much goes in, otherwise it explodes. What is to prevent the earth from exploding from too much infusion of energy of nonrelated entities? You have to have a supreme being, I would think, that could control what each one infuses so that it would not be more than the earth can handle at any one time.

The Universal Consciousness controls all. There is no such thing as random. There is no such thing as unrelated. Everything happens as it is supposed to happen. End of discussion.
