**OCTOBER 04, 1998**

SEARCH FOR SELF ~ PRACTITIONER LEVEL ~ THE WEBBING EFFECT, PART I

*Waith: The blessings to all of you!*

**Blessings to you, too!**

*We are pleased that you have gathered ~ you have taken the challenge for the Practitioner Level ~ and when we complete our time with you in this gathering, you will truly understand the challenges that will come before you for this particular level of certification. For we begin to move you into the arena of activation of the concepts. And thus, you will have a great deal of responsibility given to Self, for what you actually do in this particular level of certification.*

*We will not be, as you would call, spoon feeding you. We will have expectations of you that will be given and stated, but we will also have expectations of you that will be NOT given and will be UNSTATED, and that will be part of the challenge of whether you truly understand the practitioner concept. For it is, then, one more step closer to the mastery level. And you must truly prove yourselves able to foresee certain expectations in order to then reach the level of mastery where you would be expected to teach.*

*So then, what we plan to do in this short time is a couple of things. The first is that, we are going to give you some basic expectations ~ from us to you. Then we are going to speak with each of you privately, unrecorded, for a very brief period of time ~ three to five minutes, perhaps, as you would call it on the plane. And then we will bring closure to this discussion with what you would best understand as a homework assignment for the next gathering that we will have. At that point we would ask you to leave before we have left Mushiba's encasement, for we have discussions with The Metagers that need to be presented.*

*So, in that light, we would recommend that you fill up on the Heavenly Edible's cookies and take them with you for the long journey home.*

**Could you promise us that we won't gain a lot of weight if we eat them?**

*Indeed! That is not in our purview ~ in our realm! Indeed! Indeed! Now then, we would hope that you have paper and pencil in hand ready to take notes on our pearls of wisdom that come out. Jenjura will be speaking with you in a second component of this Webbing Effect ~ so, in the next gathering you will have Jenjura.*

*What you must understand ~ what we expect from you for The Webbing Effect ~ and this expectation, will be given unit by unit, for there will be some who will come only for a particular unit and have not come to all of the units, the whole series as we would call it. So for this particular unit, the first expectation that we have is that, first and foremost, you reread all of the information that has been given thus far relating to The*

*Webbing Effect ~ and that you personally make notes on information that you would like to implement for yourself.*

*Now while that may seem rather generalized, it is not. You will be doing this for each unit. So, for some of you, you may find that you want to get ahead of yourselves a bit and read some of the units coming up ~ but, for this particular time, reread. So this will be that which was given as the very introductory information, and that which was given at the Initiator Level ~ which you will have soon enough. Mushiba will give you that information.*

*We then expect that you develop three goals for yourself relating to finding your web and your place in your web. Our third and final expectation ~ is that you bring with you in the next series, the next session, what you think would be a plan of action for Self to discover where you are in finding your place within your own web.*

*Do any of you have questions about the expectations? Indeed.*

**What do you mean by notes on information that I can implement for myself? What interests me more than others, in other words?**

*Indeed. Almost as if you were selecting a major within the topic area, my love. A concentration. For, if you do progress to the mastery level, you will then become more generalized. But in order to have that ability to become more generalized, you must do focusing first. In spite of what many think of generalized as being, perhaps, an escape from being specialized ~ it is quite the opposite. Generalized is far greater a skill than specialized.*

(Waith coughs and requests someone to bring a drink of water)

*Now then ~ yes, my love?*

**It is about the three goals ~**

*Speak up, my love!*

**It's about the three goals. Can we look at them as maybe short term or long term? Will we be working on them during the ~ I guess I don't really know where to go with that! Will we be working on it in this phase and then ~**

*Yes. Yes to all of that.*

**Okay.**

*They can be short term. They can be long term. They can be one or the other. They can be both. You determine their timeline for Self. And, indeed, you have identified an unspoken expectation that we have. And that is, that you give a timeline for Self on goal attainment, you see. And now it has been spoken and so you have one of those unspoken expectations in print now, you see? (Name given) has helped you out a bit. There are a number of others that you may indeed be thinking.*

*Do not be afraid to do something on your own. This is part of the challenge that comes from the Practitioner Level ~ to have the question is the first ~ to ask the question is the second, as you would have the opportunity to ask the question immediately. If you do not have the opportunity to ask the question immediately, but feel that there is something that you want to add to all of this, then you do that and then you bring it in, you see.*

*Now, you will be handing in written information to Mushiba, for she will be evaluating your written responses to this expectation, so that if there was anything that you have stated from Self that we have not given you, then you would put that in writing and say, "This is my interpretation of the goals, and these are things that I am adding in that I feel appropriate to Self." You have a great deal of flexibility in this arena.*

*But you will be, indeed, monitored throughout this coming year by Mushiba and The Metagers for the way in which you are responding in writing ~ so, this is not something where you just come and listen. There will be a great deal of interaction, most of which will occur outside of this arena will occur within your time frames.*

*And for certification to be approved, must come from Mushiba, The Metagers, and their discussions with us as to whether or not all are in agreement that you have achieved that which is appropriate for the Practitioner Level for each unit. Thus, while you do not have to complete the requirements of a unit within each month, you may in fact, move it a bit into another month ~ it is, in essence, almost a home study type of situation.*

*However, you will have as nearly immediate access to Mushiba or one of The Metagers if you have questions about what you are doing. Not questions of "Am I doing the right thing?" but rather, questions of substance and content, "This is what I have planned to do and this is what I am doing." If you have something very concrete to ask in terms of "It does not seem to be working, can you perhaps see something that I am not seeing?" Do not just come in with the whining, for the cheese and crackers are not available, as Mushiba would say, to go with that wine! Indeed! 😊 😊*

*So you are fortunate in that you are the charter participants of this whole certification series ~ that you have more readily available access to Mushiba and The Metagers. When it goes out into the home study, they will have access, but not quite as one on one as you have now. So that is a caveat, if you will, for this. Any other questions? Speak up, my love!*

**I just don't really understand caveat ~**

*Oh, look it up!*

**I will!**

*Indeed! C-A-V-E-A-T. A French word, as I am told by Mushiba.*

**I imagine that we are expected to practice the techniques that we are doing?**

*That's very good, my love, since this is called the Practitioner Level! 😊 😊*

**I imagine, right? Unless there is some other ~ there are different ways of stating the same concepts ~ there might be some other techniques that we have ~ (Balance of comment is inaudible)**

*Oh indeed! Yes! That is why we say be very specific in the types of the questions or concerns that you would have. (Waith coughs) Certainly, if you have a question about The Webbing Effect in three months, you could ask us that, for we expect that you will be practicing well beyond the time of discussion. Indeed, that is what has to occur ~ that it becomes so interrelated, you see ~ except for those who may be very specific in the unit that they have been studying, you see. Indeed, you would be expected, as you practice the plan, that you would have questions for the plan as written. Generally, it does not follow the activity ~ you know that from your own lives. So yes, it is very interactive.*

*Your participation in this as charter participants is also useful for the way in which it will be presented to the home study component. Certain earth plane organization must be put in place. That will be eased somewhat by the ways in which you have interacted with us and with Mushiba and with The Metagers.*

**The energy going out, what we do here now is going to be going out ~**

*That is the idea! (Cannot hear the first part of Waith's bantering) 😊 😊*

**I have a question about the home study. Is the plan that the home study can be done on the computer?**

*It is possible, yes. We get it into its basic form first, and then, depending upon how Marisa ~ who is in charge of all of that component ~ determines that it has many implications by placing it into that realm, if you will, for availability and expectation of availability ~ and that is what Mushiba is doing. Eventually, perhaps not before the shifting, but certainly after.*

*Other questions? Indeed. Indeed.*

*And now, we would like to use Pooh's lovely energy space to just connect with each one of you personally. And while we are doing that, by all means, socialize with the others, and when we return we will give you an assignment, if you will. Not that the expectations are assignment enough ~ but certainly, we will speak with you.*

**When we were introduced to some of these concepts originally during the public sessions at an earlier level, there were some tapes ~ would it be possible to discuss getting those meditations, purchasing the tapes?**

*That is a possibility. Perhaps, when we speak with The Metagers and we will look at, at least at this time frame on the earth plane, at the availability of their own resources, time wise. We do know that it has been discussed in the past ~ that you can appreciate that, since everyone works very, very busy full time jobs, if you would call it, outside of this arena ~ and that would present a challenge ~ but certainly, to be discussed.*

*All right then, we will then take this off. (Referring to the microphone) It has been a pleasure to speak with each of you and now, we give you (Waith coughs) Mushiba wanted us to know how it felt ~ we were saying "Oh, it is not that bad, this physical thing that you have!" So she said, "Come in and find out yourself!" Enough said!*

(Inaudible comment) 😊 😊

*She will not! Unfortunately, there are periodic cleansings of her encasement that must occur that conflict with our time coming in. We try to avoid that ~ it's not always possible.*

*Your assignment then, for the next gathering between now and then, we will spell the first word ~ r-e-l-a-x. 😊 😊 Relax, my loved ones. Do the very best that you can in what we have given as expectations. Begin to feel comfortable in what is about to come for each of these units. It is not all written in stone. You will set goals, and once you try to achieve those goals, you will see them being reset and reset again. The important thing is the learning of the information in the correct way. That is our focus with you, you see.*

*So you have your expectations stated and in writing and you already know one of the unstated ~ unwritten ~ expectations from our love here. We expect that you will have your own unstated as you begin to think about this and begin to feel comfortable with it. You will feel more comfortable as we move into other units ~ this is the first. Relax! And remember our prime directive ~ take what you do seriously, but take yourselves lightly! So relax and be lighthearted. Do your work with a serious mode, but do not let it overwhelm you! If you begin to feel stuck, or you begin to feel suffocated because you cannot get through something ~ what are you supposed to do?*

- ⚙️ Relax!
- ⚙️ Go and laugh more!

*That is certainly part of it. What else are you supposed to do? Something very concrete.*

**Call Mushiba.**

*There you go! Call Mushiba. She may have one of The Metagers call you back, but call Mushiba! (Waith continues to cough) We are ready to allow you to leave so that we may then talk freely! We must do a bit of work on Mushiba's encasement and we must meet with The Metagers. So, my loved ones, we will see you soon, as they say on the plane. Take your cookies with you. Eat the peanuts ~ is that what it is called?*

(Waith meets privately with each of the practitioners)
